Balance Sheets (As At and Average Daily Balances)	19-20	Deposits	38

This report is unaudited and all amounts are in millions of Canadian dollars, unless otherwise indicated.

Use of this Document

The supplemental information contained in this package is designed to improve the readers' understanding of the financial performance of BMO Financial Group (the Bank). This information should be used in conjunction with the Bank's First Quarter 2022 Report to Shareholders available on SEDAR at www.sedar.com and BMO's website at www.bmo.com/investorrelations.

Additional financial information is also available in the Q1 2022 Supplementary Regulatory Capital Information and the Q1 2022 Investor Presentation which can be accessed at our website at www.bmo.com/investorrelations.

This report is unaudited and all amounts are in millions of Canadian dollars, unless indicated otherwise.

Items indicated n.a. were not applicable.

Non-GAAP and Other Financial Measures

Results and measures in this document are presented on a GAAP basis. Unless otherwise indicated, all amounts are in Canadian dollars and have been derived from our unaudited interim consolidated financial statements prepared in accordance with International Financial Reporting Standards (IFRS). References to GAAP mean IFRS. We use a number of financial measures to assess our performance, as well as the performance of our operating businesses, including measures and ratios that are presented on a non-GAAP basis, as described below. We believe that these non-GAAP amounts, measures and ratios, read together with our GAAP results, provide readers with a better understanding of how management assesses results.

Non-GAAP amounts, measures and ratios do not have standardized meanings under GAAP. They are unlikely to be comparable to similar measures presented by other companies and should not be viewed in isolation from, or as a substitute for, GAAP results.

Certain information contained in the MD&A of the Bank's First Quarter 2022 Report to Shareholders dated March 1, 2022 for the period ended January 31, 2022 is incorporated by reference into this document. Further information regarding the composition of our non-GAAP and other financial measures is provided in the "Glossary of Financial Terms" section of the First Quarter 2022 Report to Shareholders. The First Quarter 2022 Report to Shareholders is available on SEDAR at www.sedar.com and on our website at www.bmo.com/investorrelations.

Our non-GAAP measures broadly fall into the following categories:

Adjusted measures and ratios

Management considers both reported and adjusted results and measures useful in assessing underlying ongoing business performance. Adjusted results and measures remove certain specified items from revenue, non-interest expense and income taxes, as detailed on page 2. Adjusted results and measures presented in this document are non-GAAP. Presenting results on both a reported basis and an adjusted basis permits readers to assess the impact of certain items on results for the periods presented, and to better assess results excluding those items that may not be reflective of ongoing business performance. As such, the presentation may facilitate readers' analysis of trends. Except as otherwise noted, management's discussion of changes in reported results in this document applies equally to changes in the corresponding adjusted results.

Measures net of insurance claims, commissions and changes in policy benefit liabilities (CCPB)

We also present reported and adjusted revenue on a basis that is net of insurance claims, commissions and changes in policy benefit liabilities (CCPB), and our efficiency ratio and operating leverage are calculated on a similar basis. Measures and ratios presented on a basis net of CCPB are non-GAAP. Insurance revenue can experience variability arising from fluctuations in the fair value of insurance assets, caused by movements in interest rates and equity markets. The investments that support policy benefit liabilities are predominantly fixed income assets recorded at fair value, with changes in fair value recorded in insurance revenue in the Consolidated Statement of Income. These fair value changes are largely offset by changes in the fair value of policy benefit liabilities, the impact of which is reflected in CCPB. The presentation and discussion of revenue, efficiency ratios and operating leverage on a net basis reduces this variability, which allows for a better assessment of operating results. For more information, refer to the Insurance Claims, Commissions and Changes in Policy Benefit Liabilities section of the First Quarter 2022 Report to Shareholders.

Presenting results on a taxable equivalent basis (teb)

We analyze consolidated revenue on a reported basis. In addition, we analyze revenue on a taxable equivalent basis (teb) at the operating group level, consistent with the Canadian peer group. Revenue and the provision for income taxes in BMO Capital Markets and U.S. P&C are increased on tax-exempt securities to an equivalent pre-tax basis. These adjustments are offset in Corporate Services. Presenting results on a teb basis reflects how our operating groups manage their business and is useful to facilitate comparisons of income between taxable and tax-exempt sources. The effective tax rate is also analyzed on a teb basis for consistency of approach, with the offset to operating segment adjustments recorded in Corporate Services.

Tangible common equity and return on tangible common equity

Tangible common equity is calculated as common shareholders' equity less goodwill and acquisition-related intangible assets, net of related deferred tax liabilities. Return on tangible common equity is commonly used in the North American banking industry and is meaningful because it measures the performance of businesses consistently, whether they were acquired or developed organically.

Presenting results on a U.S. dollar basis

Results and measures that exclude the impact of Canadian/U.S. dollar exchange rate movements on BMO's U.S. segment are non-GAAP. Refer to the Foreign Exchange section of the First Quarter 2022 Report to Shareholders for a discussion of the effects of changes in exchange rates on our results.

We present our U.S. P&C business results, as well as select U.S. segment information for the bank, BMO Wealth Management, BMO Capital Markets and Corporate Services, on a U.S. dollar basis. Presenting these results on a U.S. dollar basis is useful in assessing the underlying performance without the variability caused by changes in foreign exchange rates.

Operating Group Results

BMO reports financial results for its three operating groups, one of which comprises two operating segments, all of which are supported by Corporate Units and Technology and Operations within Corporate Services. Operating group results include treasury-related allocations in revenue, non-interest expense allocations from Corporate Units and Technology and Operations (T&O) and allocated capital. For more information see the "How BMO Reports Operating Group Results" section of the First Quarter 2022 Report to Shareholders.

Changes

Periodically, certain business lines and units within business lines are transferred between client and corporate support groups to more closely align BMO's organizational structure with its strategic priorities. In addition, revenue, provision for credit losses and expense allocations are updated to better align with current experience. Effective the first quarter of 2022, certain expense allocations were updated to better align with current experience. Prior periods have been reclassified to conform with the current period's methodology.

Effective the first quarter of 2021, we reclassified metal lease balances from other assets to business and government loans. Results for prior periods have been reclassified to conform with the current period's presentation.

(1) For information on the composition of non-GAAP and other financial measures, refer to the "Glossary of Financial Terms" section in the First Quarter 2022 Report to Shareholders, and the Notes to Users section on page 1.

(2) Average earning assets represents the daily average balance of deposits at central banks, deposits with other banks, securities borrowed or purchased under resale agreements, securities, and loans.

(3) Gross impaired loans excludes purchased credit impaired loans.

(4) Capital Measures are disclosed in accordance with OSFI's Capital Adequacy Requirements (CAR) Guideline.

(5) Dividend payout ratio equals dividends declared per share divided by basic earnings per share.

(6) Adjusted dividend payout ratio equals dividends declared per share divided by adjusted basic earnings per share. This is a non-GAAP measure or ratio. See the "Non-GAAP and Other Financial Measures" section on page 1 for further information.

(1) Trading revenues presented on a taxable equivalent basis are non-GAAP measures. See the "Non-GAAP and Other Financial Measures" section on page 1 for further information.

(2) Adjusted results are non-GAAP financial measures. See the "Non-GAAP and Other Financial Measures" section on page 1 for further information.

Trading revenues include interest and other income earned on trading securities and other cash instruments held in trading portfolios, less internal and external funding costs associated with trading-related derivatives and cash instruments, and realized and unrealized gains and losses on trading securities, other cash instruments, derivatives and foreign exchange activities.

Interest rates includes Canadian and other government securities, corporate debt instruments and interest rate derivatives.

Foreign exchange includes foreign exchange spot and foreign exchange derivatives contracts from our wholesale banking business.

Equities includes institutional equities and equity derivatives.

Commodities includes commodity swaps, forwards, and options contracts.

Other includes the impact of hedging exposures in our structural balance sheet.

(1) Adjusted non-interest expense excludes acquisition-related costs (including integration of the acquired business), restructuring costs, amortization of acquisition-related intangible assets and certain divestiture-related costs. For a reconciliation of reported and adjusted expenses refer to page 18 of this document. Adjusted non-interest expense is a non-GAAP measure. See the "Non-GAAP and Other Financial Measures" section on page 1 for further information.

(2) Region is based upon address of the property mortgaged.

(3) Portfolio insured mortgages are defined as mortgages that are individually or bulk insured through a credited insurer (i.e. CMHC, Genworth).

(4) Loan to Value (LTV) is based on the value of the property at mortgage origination and outstanding amount for mortgages, authorized amounts for HELOC's.

(5) HELOC in Canada includes 29% revolving (October 31, 2021 30%) and 71% amortizing (October 31, 2021 70%) loans.

(6) Remaining amortization is based upon current balance, interest rate, customer payment amount, and frequency in Canada and contractual payment schedule in the US.

(7) Large proportion of U.S. based mortgages in the longer amortization band largely driven by modification programs for troubled borrowers and regulator initiated mortgage refinance program.

(8) Reporting methodologies are under OSFI B-20 guidelines.

(1) Pledged as collateral refers to the portion of on-balance sheet assets and other cash and securities that is pledged through repurchase agreements, securities lent, derivative contracts, minimum required deposits at central banks and requirements associated with participation in clearing houses and payment systems. Other encumbered assets include assets that are restricted for legal or other reasons, such as restricted cash and short sales.

(2) Other unencumbered assets include select liquid asset holdings that management believes are not readily available to support the Bank's liquidity requirements. These include securities held at the Bank's insurance subsidiary, significant equity investments, and certain investments held at our merchant banking business. Other unencumbered assets also include mortgages and loans that may be securitized to access secured funding.

(3) Loans included as available as collateral represent loans currently lodged at central banks that could potentially be used to access central bank funding. Loans available for pledging as collateral do not include other sources of additional liquidity that may be realized from the loan portfolio, such as incremental securitization, covered bond issuances and FHLB advances.

(4) Under IFRS, NHA mortgage-backed securities that include mortgages owned by the Bank as the underlying collateral are classified as loans. Unencumbered NHA mortgage-backed securities have liquidity value and are included as liquid assets under the Bank's Liquidity and Funding Management Framework. This amount is shown as a separate line item, NHA mortgage-backed securities.
