

BMO Financial Group Reports First Quarter 2025 Results

REPORT TO SHAREHOLDERS

BMO's First Quarter 2025 Report to Shareholders, including the unaudited interim consolidated financial statements for the period ended January 31, 2025 are available online at www.bmo.com/investorrelations, on the Canadian Securities Administrators' website at www.sedarplus.ca, and on the EDGAR section of the U.S. Securities and Exchange Commission's website at www.sec.gov.

Financial Results Highlights

First Quarter 2025 compared with First Quarter 2024:

- Net income¹ of \$2,138 million, compared with \$1,292 million; adjusted net income¹ of \$2,289 million, compared with \$1,893 million
- Reported earnings per share (EPS)² of \$2.83, an increase from \$1.73; adjusted EPS^{1, 2} of \$3.04, an increase from \$2.56
- Provision for credit losses (PCL) of \$1,011 million, compared with \$627 million
- Return on equity (ROE) of 10.6%, an increase from 7.2%; adjusted ROE¹ of 11.3%, an increase from 10.6%
- Common Equity Tier 1 (CET1) Ratio³ of 13.6%, compared with 12.8%

Adjusted¹ results in the current quarter excluded the following items:

- Impact of aligning accounting policies for employee vacation across legal entities of \$70 million (\$96 million pre-tax).
- Amortization of acquisition-related intangible assets and any impairments of \$79 million (\$106 million pre-tax).
- Acquisition and integration costs of \$7 million (\$10 million pre-tax).
- Impact of the U.S. Federal Deposit Insurance Corporation (FDIC) special assessment partial reversal of \$5 million (\$7 million pre-tax).

Toronto, February 25, 2025 – BMO Financial Group (TSX:BMO) (NYSE:BMO) today announced financial results for the first quarter ended January 31, 2025. Reported net income was \$2,138 million and EPS was \$2.83, an increase from \$1,292 million and \$1.73 in the prior year. Adjusted net income was \$2,289 million and adjusted EPS was \$3.04, an increase from \$1,893 million and \$2.56 in the prior year.

"We delivered strong first quarter performance with broad-based revenue growth driving positive operating leverage in each of our operating groups. Provisions for credit losses declined from the prior quarter as expected, and we initiated our share buyback program," said Darryl White, Chief Executive Officer, BMO Financial Group.

"With the strength of our deep geographic and business diversification, we are well positioned to compete and grow in this dynamic operating environment. Our balance sheet is strong, and we're serving our clients with robust capital and liquidity and business strategies aimed at providing trusted advice – just as we have for over 200 years throughout Canada and the United States," concluded Mr. White.

Concurrent with the release of results, BMO announced a second quarter 2025 dividend of \$1.59 per common share, an increase of \$0.08 or 5% from the prior year, and unchanged from the prior quarter. The quarterly dividend of \$1.59 per common share is equivalent to an annual dividend of \$6.36 per common share. During the quarter, we purchased for cancellation 1.2 million common shares under the normal course issuer bid.

Caution

The foregoing section contains forward-looking statements. Please refer to the Caution Regarding Forward-Looking Statements.

(1) Results and measures in this document are presented on a generally accepted accounting principles (GAAP) basis. They are also presented on an adjusted basis that excludes the impact of certain specified items from reported results. Adjusted results and ratios are non-GAAP and are detailed in the Non-GAAP and Other Financial Measures section. Unless otherwise indicated, all amounts are in Canadian dollars. All ratios and percentage changes in this document are based on unrounded numbers.

(2) All EPS measures in this document refer to diluted EPS, unless specified otherwise.

(3) The CET1 Ratio is disclosed in accordance with the Capital Adequacy Requirements (CAR) Guideline, as set out by the Office of the Superintendent of Financial Institutions (OSFI), as applicable.

Enhanced Disclosure Task Force

Disclosures related to recommendations from the Financial Stability Board's Enhanced Disclosure Task Force (EDTF) to provide high-quality, transparent risk disclosures are detailed in the index below, as presented in BMO's 2024 Annual Report, the First Quarter 2025 Report to Shareholders (RTS), Supplemental Financial Information (SFI) or Supplemental Regulatory Capital Information (SRCI). Information on BMO's website, including information within the SFI or SRCI, is not and should not be considered incorporated by reference into our First Quarter 2025 Report to Shareholders.

Management's Discussion and Analysis

Management's Discussion and Analysis (MD&A) commentary is as at February 24, 2025 for the period ended January 31, 2025. The material that precedes this section comprises part of this MD&A. The MD&A should be read in conjunction with the unaudited interim consolidated financial statements for the period ended January 31, 2025, included in this document, as well as the audited annual consolidated financial statements for the year ended October 31, 2024, and the 2024 annual MD&A, contained in Bank of Montreal's 2024 Annual Report.

The 2024 annual MD&A includes a comprehensive discussion of our businesses, strategies and objectives, and can be accessed on our website, together with other disclosure materials, including interim filings, Annual Information Form and Notice of Annual Meeting of Shareholders and Proxy Circular at www.bmo.com/investorrelations. Readers are also encouraged to visit the site to view other quarterly financial information.

Bank of Montreal uses a unified branding approach that links all of the organization's member companies. Bank of Montreal, together with its subsidiaries, is known as BMO Financial Group. In this document, the names BMO and BMO Financial Group, as well as the words "bank", "we" and "our", mean Bank of Montreal, together with its subsidiaries.

Bank of Montreal's management, under the supervision of the Chief Executive Officer and the Chief Financial Officer, has evaluated the effectiveness, as at January 31, 2025, of Bank of Montreal's disclosure controls and procedures (as defined in the rules of the U.S. Securities and Exchange Commission and the Canadian Securities Administrators) and has concluded that such disclosure controls and procedures are effective.

There were no changes in our internal control over financial reporting during the quarter ended January 31, 2025, which materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Because of inherent limitations, disclosure controls and procedures and internal control over financial reporting can provide only reasonable assurance and may not prevent or detect misstatements.

As in prior quarters, Bank of Montreal's Audit and Conduct Review Committee reviewed this document and Bank of Montreal's Board of Directors approved the document prior to its release.

Caution Regarding Forward-Looking Statements

Bank of Montreal's public communications often include written or oral forward-looking statements. Statements of this type are included in this document and may be included in other filings with Canadian securities regulators or the U.S. Securities and Exchange Commission, or in other communications. All such statements are made pursuant to the "safe harbor" provisions of, and are intended to be forward-looking statements under, the United States *Private Securities Litigation Reform Act* of 1995 and any applicable Canadian securities legislation. Forward-looking statements in this document may include, but are not limited to: statements with respect to our objectives and priorities for fiscal 2025 and beyond; our strategies or future actions; our targets and commitments (including with respect to net zero emissions); expectations for our financial condition, capital position, the regulatory environment in which we operate, the results of, or outlook for, our operations or the Canadian, U.S. and international economies; and include statements made by our management. Forward-looking statements are typically identified by words such as "will", "would", "should", "believe", "expect", "anticipate", "project", "intend", "estimate", "plan", "goal", "commit", "target", "may", "might", "schedule", "forecast", "outlook", "timeline", "suggest", "seek" and "could" or negative or grammatical variations thereof.

By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties, both general and specific in nature. There is significant risk that predictions, forecasts, conclusions or projections will not prove to be accurate, that our assumptions may not be correct, and that actual results may differ materially from such predictions, forecasts, conclusions or projections. We caution readers of this document not to place undue reliance on our forward-looking statements, as a number of factors – many of which are beyond our control and the effects of which can be difficult to predict – could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed in the forward-looking statements.

The future outcomes that relate to forward-looking statements may be influenced by many factors, including, but not limited to: general economic and market conditions in the countries in which we operate, including labour challenges and changes in foreign exchange and interest rates; political conditions, including changes relating to, or affecting, economic or trade matters, including tariffs, countermeasures and tariff mitigation policies; changes to our credit ratings; cyber and information security, including the threat of data breaches, hacking, identity theft and corporate espionage, as well as the possibility of denial of service resulting from efforts targeted at causing system failure and service disruption; technology resilience, innovation and competition; failure of third parties to comply with their obligations to us; disruptions of global supply chains; environmental and social risk, including climate change; the Canadian housing market and consumer leverage; inflationary pressures; changes in laws, including tax legislation and interpretation, or in supervisory expectations or requirements, including capital, interest rate and liquidity requirements and guidance, including if the bank were designated a global systemically important bank, and the effect of such changes on funding costs and capital requirements; changes in monetary, fiscal or economic policy; weak, volatile or illiquid capital or credit markets; the level of competition in the geographic and business areas in which we operate; exposure to, and the resolution of, significant litigation or regulatory matters, the appeal of favourable outcomes and our ability to successfully appeal adverse outcomes of such matters and the timing, determination and recovery of amounts related to such matters; the accuracy and completeness of the information we obtain with respect to our customers and counterparties; our ability to execute our strategic plans, complete proposed acquisitions or dispositions and integrate acquisitions, including obtaining regulatory approvals, and realize any anticipated benefits from such plans and transactions; critical accounting estimates and judgments, and the effects of changes in accounting standards, rules and interpretations on these estimates; operational and infrastructure risks, including with respect to reliance on third parties; global capital markets activities; the emergence or continuation of widespread health emergencies or pandemics, and their impact on local, national or international economies, as well as their heightening of certain risks that may affect our future results; the possible effects on our business of war or terrorist activities; natural disasters, such as earthquakes or flooding, and disruptions to public infrastructure, such as transportation, communications, power or water supply; and our ability to anticipate and effectively manage risks arising from all of the foregoing factors.

We caution that the foregoing list is not exhaustive of all possible factors. Other factors and risks could adversely affect our results. For more information, please refer to the discussion in the Risks That May Affect Future Results section, and the sections related to credit and counterparty, market, insurance, liquidity and funding, operational non-financial, legal and regulatory, strategic, environmental and social, and reputation risk, in the Enterprise-Wide Risk Management section of BMO's 2024 Annual Report, and the Risk Management section in our First Quarter 2025 Report to Shareholders, all of which outline certain key factors and risks that may affect our future results. Investors and others should carefully consider these factors and risks, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. We do not undertake to update any forward-looking statements, whether written or oral, that may be made from time to time by the organization or on its behalf, except as required by law. The forward-looking information contained in this document is presented for the purpose of assisting shareholders and analysts in understanding our financial position as at and for the periods ended on the dates presented, as well as our strategic priorities and objectives, and may not be appropriate for other purposes.

Material economic assumptions underlying the forward-looking statements contained in this document include those set out in the Economic Developments and Outlook section of BMO's 2024 Annual Report, as updated in the Economic Developments and Outlook section and the Risk Management - Update on General Economic Conditions and Trade Disputes section in our First Quarter 2025 Report to Shareholders, as well as in the Allowance for Credit Losses section of BMO's 2024 Annual Report, as updated in the Allowance for Credit Losses section in our First Quarter 2025 Report to Shareholders. Assumptions about the performance of the Canadian and U.S. economies, as well as overall market conditions and their combined effect on our business, are material factors we consider when determining our strategic priorities, objectives and expectations for our business. In determining our expectations for economic growth, we primarily consider historical economic data, past relationships between economic and financial variables, changes in government policies, and the risks to the domestic and global economy.

Economic Developments and Outlook ⁽¹⁾

Canada's real gross domestic product (GDP) growth is expected to moderate slightly in the first calendar quarter of 2025 from an estimated annualized rate of 1.8% in the fourth quarter of 2024. The economy faces a material risk of punitive tariffs on exports to the United States that could take effect at the end of a 30-day grace period in early March 2025 and counter duties on imports. Assuming Canada avoids a trade war with the United States, real GDP growth is projected to improve to a rate of 1.7% in 2025 from an estimated 1.3% in 2024. Falling interest rates should support consumer spending and a recovery in housing market activity, despite the dampening effect of immigration restrictions and slower population growth. A temporary reduction in sales taxes and Ontario's rebate cheques to taxpayers should also provide support early in the year. The unemployment rate has risen by almost one percentage point in the past year to 6.6% in January 2025, due to a rapidly expanding labour force and slowing employment growth. The unemployment rate is anticipated to rise to 6.9% in the months ahead, before falling modestly as economic growth improves and population growth slows. Easing labour shortages and lower gasoline prices helped to reduce Consumer Price Index inflation to a 1.9% year-over-year rate in January 2025 from a 2.9% rate in January 2024. With inflation near the 2% target, the Bank of Canada has lowered its key policy rate by 200 basis points since June 2024 and is expected to reduce it by an additional 50 basis points to 2.5% by July 2025. Alongside lower mortgage rates, new mortgage rules, largely intended to assist first-time home buyers, will support the housing market. Industry-wide growth in residential mortgage balances has improved recently to 4.1% year-over-year in December 2024 and is projected to increase gradually as housing market activity improves. Year-over-year growth in consumer credit (excluding mortgages) was 4.2% in December 2024, amid strong growth in credit card balances, and will likely remain close to this pace in 2025. Industry-wide growth in non-financial corporate credit balances was 1.8% year-over-year in December 2024, held back by trade policy uncertainty. The Canadian dollar will likely remain weak due to the lower interest rate environment in Canada relative to the United States. In the event widespread tariffs of up to 25% are imposed for a full year, together with retaliation duties, Canada's economy would likely suffer a moderate recession, with the Bank of Canada likely to respond with lower interest rates resulting in a further weakening of the Canadian dollar. This risk will likely depress business investment growth for some time.

A broadening trade war would slow the U.S. economy though likely not pull it into a recession. Assuming a trade war is avoided, U.S. real GDP is expected to grow at a moderate rate in the first quarter of 2025, similar to the 2.3% annualized rate in the fourth quarter of 2024, supported by lower policy rates though held back by a strong U.S. dollar. Growth in U.S. real GDP in 2025 is expected to moderate to 2.4% from 2.8% in 2024, amid continued strength in consumer and business spending and possible reductions in personal income and corporate taxes, offset partly by the potential effects of trade protectionism, deportations of undocumented migrants, and reductions in federal government spending. While employment growth remains positive, the unemployment rate has increased moderately to 4.0% in January 2025 and is projected to rise slightly to 4.3% in 2025. The easing in labour market conditions has reduced pressure on inflation, resulting in year-over-year growth in the Consumer Price Index moderating to 3.0% in January 2025, though inflation remains somewhat elevated. After lowering its key lending rate by 100 basis points since September 2024, the Federal Reserve is projected to reduce the rate further by a cumulative 50 basis points in 2025. Housing market activity should improve modestly as current elevated mortgage rates decline. Growth in residential mortgage balances has slowed considerably to 2.0% year-over-year in January 2025 due to ongoing weakness in home sales, but will likely strengthen moderately in 2025 given anticipated declines in mortgage rates. Despite increased credit card use, year-over-year growth in consumer loan balances decelerated to 2.2% in January 2025, but is projected to pick up modestly in 2025 due to lower interest rates. Year-over-year growth in commercial, industrial and commercial real estate credit remains weak at 1.2% in January 2025 due to still elevated borrowing costs, stricter lending conditions and weakness in the office real estate market, though it is expected to improve modestly in 2025 in response to lower interest rates.

The economic outlook is subject to several risks that could lead to a less favourable outcome for the North American economy. The most immediate threat is from potential new tariffs imposed by the U.S. Federal Government on U.S. imports and retaliatory actions by trading partners. The Canadian economy and businesses face additional long-term risks in the event of an unsuccessful renegotiation of the Canada-United States-Mexico Trade Agreement by 2026. The wildfires in Los Angeles will temporarily slow growth in California before extensive rebuilding in the years ahead. Other risks include the continued conflict in Ukraine, possible renewed conflict in the Middle East, heightened tensions between the United States and China over trade relations and Taiwan, and ongoing diplomatic tensions between Canada and India.

Caution

This Economic Developments and Outlook section contains forward-looking statements. Please refer to the Caution Regarding Forward-Looking Statements.

(1) All periods in this section refer to the calendar quarter and calendar year, rather than the fiscal quarter or fiscal year.

(1) Adjusted results exclude certain items from reported results and are used to calculate our adjusted measures as presented in the table above. Management assesses performance on a reported basis and an adjusted basis, and considers both to be useful. For further information, refer to the Non-GAAP and Other Financial Measures section.

(2) PCL, ROE and ROTCE ratios are presented on an annualized basis.

(3) Capital and liquidity measures are disclosed in accordance with the Capital Adequacy Requirements (CAR) Guideline and the Liquidity Adequacy Requirements (LAR) Guideline, as set out by the Office of the Superintendent of Financial Institutions (OSFI), as applicable.

Certain comparative figures have been reclassified to conform with the current period's presentation.

Non-GAAP and Other Financial Measures

Results and measures in this document are presented on a generally accepted accounting principles (GAAP) basis. Unless otherwise indicated, all amounts are in Canadian dollars and have been derived from our audited annual consolidated financial statements and our unaudited interim consolidated financial statements, prepared in accordance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board. References to GAAP mean IFRS. We use a number of financial measures to assess our performance, as well as the performance of our operating segments, including amounts, measures and ratios that are presented on a non-GAAP basis, as described below. We believe that these non-GAAP amounts, measures and ratios, read together with our GAAP results, provide readers with a better understanding of how management assesses results.

Non-GAAP amounts, measures and ratios do not have standardized meanings under GAAP. They are unlikely to be comparable to similar measures presented by other companies and should not be viewed in isolation from, or as a substitute for, GAAP results.

For further information regarding the composition of our non-GAAP and other financial measures, including supplementary financial measures, refer to the Glossary of Financial Terms.

Adjusted measures and ratios

Management considers both reported and adjusted results and measures to be useful in assessing underlying ongoing business performance. Adjusted results and measures remove certain specified items from revenue, non-interest expense, provision for credit losses and income taxes, as detailed in the following table. Adjusted results and measures presented in this document are non-GAAP. Presenting results on both a reported basis and an adjusted basis permits readers to assess the impact of certain items on results for the periods presented, and to better assess results excluding those items that may not be reflective of ongoing business performance. As such, the presentation may facilitate readers' analysis of trends. Except as otherwise noted, management's discussion of changes in reported results in this document applies equally to changes in the corresponding adjusted results.

Tangible common equity and return on tangible common equity

Tangible common equity is calculated as common shareholders' equity, less goodwill and acquisition-related intangible assets, net of related deferred tax liabilities. Return on tangible common equity (ROTCE) is calculated as net income available to common shareholders, adjusted for the amortization of acquisition-related intangible assets and any impairments, as a percentage of average tangible common equity. ROTCE is commonly used in the North American banking industry and is meaningful because it measures the performance of businesses consistently, whether they were acquired or developed organically.

Adjusting Items

Adjusted results in the current quarter, prior year and prior quarter excluded the following items:

- Impact of aligning accounting policies for employee vacation across legal entities of \$70 million (\$96 million pre-tax) in Q1-2025, recorded in non-interest expense in Corporate Services.
- Amortization of acquisition-related intangible assets and any impairments of \$79 million (\$106 million pre-tax) in Q1-2025, recorded in non-interest expense in the related operating group. Prior periods included \$84 million (\$112 million pre-tax) in Q1-2024 and \$92 million (\$124 million pre-tax) in Q4-2024.
- Acquisition and integration costs of \$7 million (\$10 million pre-tax) in Q1-2025, recorded in non-interest expense in the related operating group. Prior periods included \$57 million (\$76 million pre-tax) in Q1-2024 and \$27 million (\$35 million pre-tax) in Q4-2024.
- Impact of a U.S. Federal Deposit Insurance Corporate (FDIC) special assessment partial reversal of \$5 million (\$7 million pre-tax) in Q1-2025, recorded in non-interest expense in Corporate Services. Prior periods included a \$313 million (\$417 million pre-tax) expense in Q1-2024, and an \$11 million (\$14 million pre-tax) partial reversal of non-interest expense in Q4-2024.
- The impact of a lawsuit associated with a predecessor bank, M&I Marshall and Ilsley Bank, recorded in Corporate Services. Prior periods included \$11 million (\$15 million pre-tax) in Q1-2024, comprising interest expense of \$14 million and non-interest expense of \$1 million, and Q4-2024 included the reversal of a fiscal 2022 legal provision, including accrued interest of \$870 million (\$1,183 million pre-tax), comprising a reversal of interest expense of \$589 million and a reversal of non-interest expense of \$594 million. For further information, refer to the Provisions and Contingent Liabilities section in Note 25 of the audited annual consolidated financial statements of BMO's 2024 Annual Report.
- Net accounting loss of \$136 million (\$164 million pre-tax) on the sale of a portfolio of recreational vehicle loans related to balance sheet optimization, recorded in non-interest revenue in Corporate Services in Q1-2024.

Adjusting items in aggregate decreased net income by \$151 million in the current quarter, compared with a decrease of \$601 million in the prior year and an increase of \$762 million in the prior quarter.

(1) U.S. segment comprises reported and adjusted results recorded in U.S. P&C and our U.S. operations in BMO Wealth Management, BMO Capital Markets and Corporate Services.

(2) Acquisition and integration costs are recorded in non-interest expense in the related operating groups. Expenses related to the acquisition of Bank of the West were recorded in Corporate Services; expenses related to the acquisition of Clearpool and Radicle were recorded in BMO Capital Markets; and expenses related to the acquisition of AIR MILES were recorded in Canadian P&C.

(1) Return on equity is based on allocated capital. Effective the first quarter of fiscal 2025, the capital allocation rate increased to 12.0% of risk weighted assets, compared with 11.5% in fiscal 2024. Capital is allocated to the operating segments based on the amount of regulatory capital required to support business activities, with unallocated capital reported in Corporate Services. Capital allocation methodologies are reviewed at least annually. For further information, refer to the How BMO Reports Operating Group Results section. Return on equity ratios are presented on an annualized basis.

(2) U.S. segment comprises reported and adjusted results and allocated capital recorded in U.S. P&C and our U.S. operations in BMO Wealth Management, BMO Capital Markets and Corporate Services.

(3) Refer to the commentary in this Non-GAAP and Other Financial Measures section for details on adjusting items.

Increased (Decreased) net income	57	23
Impact on earnings per share (\$)	0.08	0.03

Adjusted results in this table are on a non-GAAP basis and are discussed in the Non-GAAP and Other Financial Measures section.

The table above indicates the relevant average Canadian/U.S. dollar exchange rates and the impact of changes in those rates on BMO's U.S. segment reported and adjusted results. Our U.S. segment comprises reported and adjusted results recorded in U.S. P&C and our U.S. operations in BMO Wealth Management, BMO Capital Markets and Corporate Services.

The Canadian dollar equivalents of BMO's U.S. segment results that are denominated in U.S. dollars increased in the first quarter of fiscal 2025, relative to both the first quarter and the fourth quarter of fiscal 2024, due to changes in the Canadian/U.S. dollar exchange rate. References in this document to the impact of the U.S. dollar do not include U.S. dollar-denominated amounts recorded outside of BMO's U.S. segment.

Economically, our U.S. dollar income stream was not hedged against the risk of changes in foreign exchange rates during fiscal 2025 and fiscal 2024. Changes in exchange rates will affect future results measured in Canadian dollars, and the impact on those results is a function of the periods in which revenue, expenses and provisions for (or recoveries of) credit losses and income taxes arise.

Refer to the Enterprise-Wide Capital Management section of BMO's 2024 Annual MD&A for a discussion of the impact that changes in foreign exchange rates can have on BMO's capital position.

Net Income

Q1 2025 vs. Q1 2024

Reported net income was \$2,138 million, an increase of \$846 million or 65% from the prior year, and adjusted net income was \$2,289 million, an increase of \$396 million or 21%. The impact of the stronger U.S. dollar increased net income by 2% on a reported basis and 4% on an adjusted basis. Reported earnings per share (EPS) was \$2.83, an increase of \$1.10 from the prior year, and adjusted EPS was \$3.04, an increase of \$0.48.

The increase in reported net income reflected the impact of the FDIC special assessment and net accounting loss on the sale of a portfolio of recreational vehicle loans in the prior year, as well as lower acquisition and integration costs, partially offset by the impact of aligning accounting policies for employee vacation across legal entities in the current year.

The increase in adjusted net income reflected higher revenue, partially offset by higher expenses and a higher provision for credit losses. Reported and adjusted net income increased in BMO Capital Markets and BMO Wealth Management, and decreased in Canadian P&C. Reported and adjusted net income increased in U.S. P&C due to the impact of the stronger U.S. dollar, and decreased on a source currency basis. Corporate Services recorded a lower net loss on both a reported and an adjusted basis.

Q1 2025 vs. Q4 2024

Reported net income decreased \$166 million or 7% from the prior quarter, and adjusted net income increased \$747 million or 48%. The impact of the stronger U.S. dollar increased net income by 2% on both a reported basis and an adjusted basis. Reported EPS decreased \$0.11 from the prior quarter, and adjusted EPS increased \$1.14.

Reported net income decreased, primarily due to the reversal of the fiscal 2022 legal provision in the prior quarter. The increase in adjusted net income reflected higher revenue and a lower provision for credit losses, partially offset by higher expenses. Reported and adjusted net income increased across all operating segments. On a reported basis, Corporate Services recorded a net loss, compared with net income in the prior quarter, and a higher net loss on an adjusted basis.

Refer to the Non-GAAP and Other Financial Measures section for further information on non-GAAP amounts, measures and ratios, including adjusting items in this Net Income section.

Revenue

Q1 2025 vs. Q1 2024

Reported and adjusted revenue was \$9,266 million. Reported revenue increased \$1,594 million or 21% from the prior year, and adjusted revenue increased \$1,416 million or 18%. The impact of the stronger U.S. dollar increased revenue by 3% on a reported basis and 4% on an adjusted basis. The increase in reported and adjusted revenue was driven by higher net interest income and non-interest revenue, with increases across all operating segments and Corporate Services.

Reported and adjusted net interest income was \$5,398 million, an increase of \$677 million or 14% from the prior year on a reported basis and an increase of \$663 million or 14% on an adjusted basis, primarily due to higher net interest income in Canadian P&C and BMO Capital Markets, and the impact of the stronger U.S. dollar. Trading-related net interest income was \$270 million, an increase of \$142 million from the prior year.

BMO's overall reported net interest margin of 1.62% increased 5 basis points from the prior year. Adjusted net interest margin, excluding trading-related net interest income, trading and insurance assets, was 1.93%, an increase of 9 basis points from the prior year, primarily due to higher margins in Canadian P&C and BMO Capital Markets, and higher net interest income in Corporate Services.

Reported and adjusted non-interest revenue was \$3,868 million, an increase of \$917 million or 31% from the prior year on a reported basis, and an increase of \$753 million or 24% on an adjusted basis. Reported results included the net accounting loss on the sale of a portfolio of recreational vehicle loans in the prior year. Adjusted non-interest revenue increased across most categories, with higher trading revenue, investment management and custodial fee revenue, insurance-related revenue, mutual fund fee revenue, securities gains, other than trading, as well as the impact of treasury-related activities in Corporate Services in the prior year and the impact of the stronger U.S. dollar.

Q1 2025 vs. Q4 2024

Reported revenue increased \$309 million or 3% from the prior quarter, and adjusted revenue increased \$898 million or 11%. The impact of the stronger U.S. dollar increased reported and adjusted revenue by 2%.

Reported net interest income decreased \$40 million or 1% from the prior quarter, primarily driven by the reversal of accrued interest on the fiscal 2022 legal provision in the prior quarter. On an adjusted basis, net interest income increased \$549 million or 11%, driven by higher trading net interest income in BMO Capital Markets and higher net interest income in our P&C businesses, as well as the impact of the stronger U.S. dollar. Trading-related net interest income increased \$325 million from the prior quarter.

BMO's overall reported net interest margin decreased 8 basis points from the prior quarter. Adjusted net interest margin, excluding trading-related net interest income, and trading and insurance assets, increased 2 basis points, primarily due to higher margins in our P&C businesses, partially offset by higher low-yielding assets in Corporate Services and lower margins in BMO Capital Markets.

Reported and adjusted non-interest revenue increased \$349 million or 10% from the prior quarter, with increases across most categories, including higher trading revenue, insurance-related revenue, investment management and custodial fee revenue, underwriting and advisory fee revenue, card fee revenue and mutual fund fee revenue, as well as the impact of the stronger U.S. dollar.

Refer to the Non-GAAP and Other Financial Measures section for further information on non-GAAP amounts, measures and ratios, including adjusting items in this Revenue section.

nm – not meaningful

Q1 2025 vs. Q1 2024

Total provision for credit losses was \$1,011 million, compared with a provision of \$627 million in the prior year. Total provision for credit losses as a percentage of average net loans and acceptances was 58 basis points, compared with 38 basis points in the prior year. The provision for credit losses on impaired loans was \$859 million, an increase of \$386 million, primarily due to higher provisions in Commercial Banking and Canadian unsecured consumer lending. The provision for credit losses on impaired loans as a percentage of average net loans and acceptances was 50 basis points, compared with 29 basis points. There was a \$152 million provision for credit losses on performing loans, compared with a \$154 million provision in the prior year. The provision for credit losses on performing loans in the current quarter was largely driven by the impact of the uncertain economic environment, including potential tariffs, on future credit conditions, and portfolio credit migration, partially offset by lower balances in certain portfolios.

Q1 2025 vs. Q4 2024

Total provision for credit losses decreased \$512 million from the prior quarter. The provision for credit losses on impaired loans decreased \$248 million, primarily due to lower provisions in BMO Capital Markets and U.S. Commercial Banking, partially offset by higher provisions in Canadian unsecured consumer lending. The provision for credit losses on impaired loans as a percentage of average net loans and acceptances was 50 basis points, compared with 66 basis points. There was a \$152 million provision for credit losses on performing loans, compared with a \$416 million provision in the prior quarter.

Impaired Loans

TABLE 9

(Canadian \$ in millions, except as noted)	Q1-2025	Q4-2024	Q1-2024
GIL, beginning of period	5,843	6,041	3,960
Classified as impaired during the period	2,373	2,218	1,366
Purchased credit impaired during the period	–	–	–
Transferred to not impaired during the period	(364)	(290)	(264)
Net repayments	(616)	(890)	(322)
Amounts written-off	(424)	(1,217)	(381)
Recoveries of loans and advances previously written-off	–	–	–
Disposals of loans	(2)	(49)	(21)
Foreign exchange and other movements	144	30	(79)
GIL, end of period	6,954	5,843	4,259
GIL to gross loans and acceptances (%)	1.00	0.86	0.65

Total gross impaired loans and acceptances (GIL) were \$6,954 million, an increase from \$5,843 million in the prior quarter, primarily due to higher impaired loans in U.S. Commercial Banking across several sectors, including manufacturing and commercial real estate, as well as the impact of the stronger U.S. dollar. GIL as a percentage of gross loans and acceptances increased to 1.00% from 0.86% in the prior quarter.

Loans classified as impaired during the quarter were \$2,373 million, an increase from \$2,218 million in the prior quarter, reflecting higher impaired loan formations in consumer lending and business and government lending.

Factors contributing to the change in GIL are outlined in the table above.

Non-Interest Expense

Q1 2025 vs. Q1 2024

Reported non-interest expense was \$5,427 million, an increase of \$38 million or 1% from the prior year, and adjusted non-interest expense was \$5,222 million, an increase of \$439 million or 9%. The impact of the stronger U.S. dollar increased non-interest expense by 3% on both a reported and an adjusted basis.

Reported results reflected the impact of the FDIC special assessment in the prior year and lower acquisition and integration costs, partially offset by the impact of aligning accounting policies for employee vacation across legal entities. Adjusted non-interest expense increased, primarily due to higher employee-related expenses, including performance-based compensation, the impact of the consolidation of certain retirement benefit plans in the prior year, higher computer and equipment costs, and the impact of the stronger U.S. dollar.

Reported efficiency ratio was 58.6%, compared with 70.2% in the prior year, and adjusted efficiency ratio was 56.3%, compared with 60.9%. Reported operating leverage was positive 20.1% and adjusted operating leverage was positive 8.9%.

Q1 2025 vs. Q4 2024

Reported non-interest expense increased \$1,000 million or 23% from the prior quarter, and adjusted non-interest expense increased \$346 million or 7%. The impact of the stronger U.S. dollar increased non-interest expense by 2% on both a reported basis and an adjusted basis.

The increase in reported results reflected the reversal of the fiscal 2022 legal provision in the prior quarter and the impact of aligning accounting policies in the current quarter. The increase in adjusted non-interest expense was primarily due to higher employee-related expenses, including stock-based compensation and seasonal benefits that are expensed in the first quarter of each year, and the impact of the stronger U.S. dollar, partially offset by lower advertising costs, professional fees and association, clearing and annual regulator fees.

Refer to the Non-GAAP and Other Financial Measures section for further information on non-GAAP amounts, measures and ratios, including adjusting items in this Non-Interest Expense section.

Provision for Income Taxes

The reported provision for income taxes was \$690 million, an increase of \$326 million from the prior year, and a decrease of \$13 million from the prior quarter. The reported effective tax rate was 24.4%, compared with 22.0% in the prior year and 23.4% in the prior quarter. The adjusted provision for income taxes was \$744 million, an increase of \$197 million from the prior year and \$317 million from the prior quarter. The adjusted effective tax rate was 24.5%, compared with 22.4% in the prior year and 21.7% in the prior quarter.

The change in the reported effective tax rate relative to the prior year, was primarily due to the impact of lower income in the prior year. The change relative to the prior quarter was primarily due to changes in earnings mix and the impact of the *Global Minimum Tax (GMT) Act* in the current quarter. The change in the adjusted effective tax rate relative to the prior year and prior quarter was primarily due to the impact of lower income in both the prior year and prior quarter, changes in earnings mix and the impact of the *GMT Act*. For further information on the *GMT Act*, refer to the Other Regulatory Developments section and Note 11 of the unaudited interim consolidated financial statements.

Refer to the Non-GAAP and Other Financial Measures section for further information on non-GAAP amounts, measures and ratios, including adjusting items in this Provision for Income Taxes section.

Balance Sheet

TABLE 10

(Canadian \$ in millions)

	As at January 31, 2025	As at October 31, 2024
Assets		
Cash and cash equivalents and interest bearing deposits with banks	79,799	68,738
Securities	411,068	396,880
Securities borrowed or purchased under resale agreements	110,632	110,907
Net loans and acceptances	689,235	678,375
Derivative instruments	52,513	47,253
Other assets	124,846	107,494
Total assets	1,468,093	1,409,647
Liabilities and Equity		
Deposits	996,832	982,440
Derivative instruments	66,353	58,303
Securities lent or sold under repurchase agreements	122,585	110,791
Other liabilities	186,169	165,450
Subordinated debt	8,554	8,377
Equity	87,559	84,250
Non-controlling interest in subsidiaries	41	36
Total liabilities and equity	1,468,093	1,409,647

Certain comparative figures have been reclassified to conform with the current period's presentation.

Total assets were \$1,468.1 billion as at January 31, 2025, an increase of \$58.4 billion from October 31, 2024. The impact of the stronger U.S. dollar increased assets by \$32.2 billion, excluding the impact on derivative assets.

Cash and cash equivalents and interest bearing deposits with banks increased \$11.1 billion, primarily due to higher balances held with central banks and the impact of the stronger U.S. dollar.

Securities increased \$14.2 billion, primarily due to the impact of the stronger U.S. dollar and higher levels of client activity in BMO Capital Markets, partially offset by lower balances in Corporate Services.

Securities borrowed or purchased under resale agreements decreased \$0.3 billion, due to lower levels of client activity in BMO Capital Markets, partially offset by the impact of the stronger U.S. dollar.

Net loans and acceptances increased \$10.9 billion. Business and government loans and acceptances increased \$7.8 billion, primarily due to the impact of the stronger U.S. dollar, with growth in Canadian P&C more than offset by lower balances in BMO Capital Markets and U.S. P&C. Residential mortgages increased \$3.2 billion, driven by growth in our P&C businesses and the impact of the stronger U.S. dollar.

Derivative assets increased \$5.3 billion, driven by an increase in the fair value of foreign exchange and interest rate contracts.

Other assets increased \$17.4 billion, primarily in BMO Capital Markets, due to changes in the balance of unsettled securities transactions and higher cash collateral balances posted with counterparties and the impact of the stronger U.S. dollar.

Liabilities increased \$55.1 billion from October 31, 2024. The impact of the stronger U.S. dollar increased liabilities by \$29.4 billion, excluding the impact on derivative liabilities.

Deposits increased \$14.4 billion. Customer deposits increased \$11.0 billion, primarily due to the impact of the stronger U.S. dollar, with growth in BMO Capital Markets and BMO Wealth Management more than offset by lower commercial deposits in our P&C businesses. Other deposits increased \$3.4 billion, due to the impact of the stronger U.S. dollar, partially offset by lower wholesale funding in Corporate Services and lower balances in Global Markets.

Derivative liabilities increased \$8.0 billion, driven by an increase in the fair value of foreign exchange and interest rate contracts, partially offset by a decrease in the fair value of equity contracts.

Securities lent or sold under repurchase agreements increased \$11.8 billion, due to higher levels of client activity in BMO Capital Markets and the impact of the stronger U.S. dollar.

Other liabilities increased \$20.7 billion, primarily in BMO Capital Markets, due to an increase in securities sold but not yet purchased, higher securitization liabilities, changes in the balance of unsettled securities transactions and the impact of the stronger U.S. dollar, partially offset by lower balances in Corporate Services.

Subordinated debt was relatively unchanged, compared with October 31, 2024.

Equity increased \$3.3 billion from October 31, 2024. Accumulated other comprehensive income increased \$2.8 billion, primarily due to the impact of the stronger U.S. dollar on the translation of net foreign operations and a decline in the accumulated other comprehensive loss on cash flow hedges. Retained earnings increased \$0.8 billion, as a result of net income earned in the year, partially offset by dividends and distributions on other equity instruments and the repurchase of common shares for cancellation under the normal course issuer bid. Preferred shares and other equity instruments decreased \$0.3 billion, due to the redemption of our Non-Cumulative 5-year Rate Reset Class B Preferred Shares, Series 31 (NVCC).

Contractual obligations by year of maturity are outlined in the Contractual Maturities of Assets and Liabilities and Off-Balance Sheet Commitments table in the Risk Management section.

Capital Management

BMO continues to manage its capital within the framework described in the Enterprise-Wide Capital Management section of BMO's 2024 Annual Report.

First Quarter 2025 Regulatory Capital Review

BMO's Common Equity Tier 1 (CET1) Ratio was 13.6% as at January 31, 2025, relatively unchanged from the fourth quarter of 2024, as internal capital generation was largely offset by higher source currency risk-weighted assets (RWA) and the impact of the repurchase of common shares for cancellation under BMO's normal course issuer bid.

CET1 Capital was \$59.2 billion as at January 31, 2025, an increase from \$57.1 billion as at October 31, 2024, driven by the impact of foreign exchange movements and internal capital generation, partially offset by the impact of the share repurchases.

RWA were \$433.9 billion as at January 31, 2025, an increase from \$420.8 billion as at October 31, 2024. RWA increased, primarily due to the impact of foreign exchange movements, changes in asset quality, an increase in asset size and higher market risk.

In calculating regulatory capital ratios, total RWA must be increased when a capital floor amount calculated under the standardized approaches, multiplied by a capital floor adjustment factor, is higher than a similar calculation using more risk-sensitive internal modelled approaches, where applicable. The capital floor was not operative as at January 31, 2025, unchanged from October 31, 2024.

The bank's Tier 1 and Total Capital Ratios were 15.4% and 17.6%, respectively, as at January 31, 2025, unchanged from October 31, 2024, due to the same factors impacting the CET1 ratio.

The impact of foreign exchange movements on capital ratios was largely offset. BMO's investments in foreign operations are primarily denominated in U.S. dollars, and the foreign exchange impact of U.S. dollar-denominated RWA and capital deductions may result in variability in the bank's capital ratios. We manage the impact of foreign exchange movements on RWA and capital deductions on our capital ratios.

Our Leverage Ratio was 4.4% as at January 31, 2025, relatively unchanged from the fourth quarter of 2024, as higher Tier 1 Capital was offset by higher leverage exposures.

The bank's risk-based Total Loss Absorbing Capacity (TLAC) Ratio and TLAC Leverage Ratio were 29.8% and 8.5%, respectively, as at January 31, 2025, compared with 29.3% and 8.3%, respectively, as at October 31, 2024.

Regulatory Capital Developments

On February 12, 2025, OSFI announced the deferral of increases to the capital floor adjustment factor, currently at 67.5%, until further notice. Banks will be notified at least two years prior to increases in the capital floor adjustment factor being resumed.

On December 17, 2024, OSFI announced that the Domestic Stability Buffer (DSB) will remain at 3.5%.

Refer to the Enterprise-Wide Capital Management section of BMO's 2024 Annual Report for discussion of regulatory developments.

Regulatory Capital, Leverage and Total Loss Absorbing Capacity

Regulatory capital requirements for BMO are determined in accordance with guidelines issued by OSFI, which are based on the Basel III framework developed by the Basel Committee on Banking Supervision (BCBS), and include OSFI's CAR Guideline and the Leverage Requirements (LR) Guideline. TLAC requirements are determined in accordance with OSFI's TLAC Guideline. For more information refer to the Enterprise-Wide Capital Management section of BMO's 2024 Annual Report.

OSFI's capital, leverage and TLAC requirements are summarized in the following table.

TABLE 11

(% of risk-weighted assets or leverage exposures)	Minimum capital, leverage and TLAC requirements	Total Pillar 1 Capital buffer (1)	Tier 1 Capital buffer (2)	Domestic stability buffer (3)	Minimum capital, leverage and TLAC requirements including capital buffers	BMO capital, leverage and TLAC ratios as at January 31, 2025
Common Equity Tier 1 Ratio	4.5%	3.5%	na	3.5%	11.5%	13.6%
Tier 1 Capital Ratio	6.0%	3.5%	na	3.5%	13.0%	15.4%
Total Capital Ratio	8.0%	3.5%	na	3.5%	15.0%	17.6%
TLAC Ratio	21.5%	na	na	3.5%	25.0%	29.8%
Leverage Ratio	3.0%	na	0.5%	na	3.5%	4.4%
TLAC Leverage Ratio	6.75%	na	0.5%	na	7.25%	8.5%

(1) The minimum CET1 Ratio requirement of 4.5% is augmented by the 3.5% Total Pillar 1 Capital buffers, which can absorb losses during periods of stress. Pillar 1 Capital buffers, which will be met with CET1 Capital, include a capital conservation buffer of 2.5%, a Common Equity Tier 1 surcharge for domestic systemically important banks (D-SIBs) of 1.0% and a countercyclical buffer, as prescribed by OSFI (immaterial for the quarter). If a bank's capital ratios fall within the range of this combined buffer, restrictions on discretionary distributions of earnings (such as dividends, share repurchases and discretionary compensation) would ensue, with the degree of such restrictions varying according to the position of the bank's ratios within the buffer range.

(2) D-SIBs are required to meet a 0.5% Tier 1 Capital buffer requirement for the Leverage and TLAC Leverage Ratios.

(3) OSFI requires all D-SIBs to hold a DSB against Pillar 2 risks associated with systemic vulnerabilities. Breaches of the DSB do not result in a bank being subject to automatic constraints on capital distributions. In the event of a breach, OSFI would require a remediation plan, and would expect for the plan to be executed in a timely manner. Banks may be required to hold additional buffers that are applicable to capital, leverage and TLAC ratios.

(1) Details on the Medium-Term Notes are outlined in Note 16 of the audited consolidated financial statements of BMO's 2024 Annual Report. Details on share capital and Other Equity Instruments are outlined in Note 6 of the unaudited interim consolidated financial statements and Note 17 of the audited annual consolidated financial statements of BMO's 2024 Annual Report.

(2) Common Shares are net of 95,889 treasury shares.

(3) Convertible into common shares. For LRCNs, convertible into common shares by virtue of the recourse to the Preferred Shares Series 48, Preferred Shares Series 49, Preferred Shares Series 51, Preferred Shares 53, and Preferred Shares 54 for Series 1, Series 2, Series 3, Series 4, and Series 5 LRCNs, respectively, issued concurrently with the LRCNs, which currently comprise the limited recourse trust assets.

(4) The notes had an initial interest rate of 4.800% and reset on August 25, 2024 to 6.709%.

If a non-viability contingent capital (NVCC) trigger event were to occur, our NVCC instruments would be converted into BMO common shares pursuant to automatic conversion formulas, with a conversion price based on the greater of: (i) a floor price of \$5.00; and (ii) the current market price of our common shares at the time of the trigger event (calculated using a 10-day weighted average). Based on a floor price of \$5.00, these NVCC capital instruments would be converted into approximately 4.3 billion BMO common shares, assuming no accrued interest and no declared and unpaid dividends.

Other Capital Developments

On January 17, 2025, we announced a normal course issuer bid (NCIB) to purchase up to 20 million of our common shares for cancellation commencing on January 22, 2025, and ending no later than January 21, 2026. The timing and amount of purchases under the NCIB are determined by management, based on factors such as market conditions and capital levels. We also established an automatic securities purchase plan related to the NCIB under which our broker may, at certain points in time, purchase our common shares pursuant to the NCIB within a defined set of criteria. During the quarter, we purchased for cancellation 1.2 million common shares under the NCIB, at an average price of \$144.43 per share for a total amount of \$176 million, including tax. In addition, we repurchased 2 million common shares in February 2025 at an average share price of \$141.39.

On November 25, 2024, we redeemed all of our outstanding 12 million Non-Cumulative 5-year Rate Reset Class B Preferred Shares, Series 31 (NVCC) for an aggregate total of \$300 million.

Dividends

On February 25, 2025, BMO announced that the Board of Directors had declared a quarterly dividend on common shares of \$1.59 per share, unchanged from the prior quarter. The dividend is payable on May 27, 2025 to shareholders of record on April 29, 2025. Common shareholders may elect to have their cash dividends reinvested in common shares of BMO, in accordance with the Shareholder Dividend Reinvestment and Share Purchase Plan (DRIP).

Common shares under the DRIP are purchased on the open market without a discount.

For the purposes of the *Income Tax Act (Canada)* and any similar provincial and territorial legislation, BMO designates all dividends paid or deemed to be paid on both its common and preferred shares as “eligible dividends”, unless indicated otherwise.

Review of Operating Groups' Performance

How BMO Reports Operating Group Results

BMO reports financial results for its three operating groups, one of which comprises two operating segments, all of which are supported by Corporate Units and Technology and Operations (T&O) within Corporate Services. Operating segment results include allocations from Corporate Services for treasury-related revenue, corporate and T&O costs, and capital.

BMO employs funds transfer pricing and liquidity transfer pricing between corporate treasury and the operating segments in order to assign cost or credit on assets and liabilities to facilitate effective pricing and business decision-making, and to help assess the profitability performance of each line of business. These practices also capture the cost of holding supplemental liquid assets to meet contingent liquidity requirements, as well as facilitating the management of interest rate and liquidity risk within our risk appetite framework and regulatory requirements. We review our transfer pricing methodologies at least annually in order to align with our interest rate, liquidity and funding risk management practices, and update these as appropriate.

The costs of Corporate Units and T&O services are largely allocated to the four operating segments, with any remaining amounts retained in Corporate Services. Certain expenses directly incurred to support a specific operating segment are generally allocated to that operating segment. Other expenses are generally allocated across the operating segments in amounts that are reasonably reflective of the level of support provided to each operating segment. We review our expense allocation methodologies at least annually and update these as appropriate.

Periodically, certain lines of business and units within our organizational structure are realigned within an operating segment or transferred between operating segments and Corporate Services to support our strategic priorities. Allocations of revenue, expenses, provisions for income taxes and capital from Corporate Services to the operating groups are updated to better align with these changes.

Capital is allocated to the operating segments based on the amount of regulatory capital required to support business activities. Effective the first quarter of fiscal 2025, the capital allocation rate increased to 12.0% of risk weighted assets, compared with 11.5% in fiscal 2024. Unallocated capital is reported in Corporate Services. We review our capital allocation methodologies at least annually and update these as appropriate.

We analyze revenue at the consolidated level based on GAAP revenue as reported in the audited annual consolidated financial statements, rather than on a taxable equivalent basis (teb), which is consistent with our Canadian banking peer group. Like many banks, BMO analyzes revenue on a teb basis at the operating segment level. Revenue and the provision for income taxes in BMO Capital Markets and U.S. P&C are increased on tax-exempt securities to equivalent pre-tax amounts in order to facilitate comparisons of income from taxable and tax-exempt sources. The offset to the segment teb adjustments is reflected in Corporate Services revenue and provision for (recovery of) income taxes. In fiscal 2024, the Canadian government enacted legislation that, in certain circumstances, denies deductions for dividends that are received after 2023. As a result, beginning January 1, 2024, we did not take the deduction for certain Canadian dividends received by BMO Capital Markets, and we no longer report this revenue on a taxable equivalent basis. Refer to the Other Regulatory Developments section in BMO's 2024 Annual Report for further details.

Personal and Commercial Banking (P&C) ⁽¹⁾

Net income available to common shareholders	1,447	980	1,458
Acquisition and integration costs (3)	–	12	1
Amortization of acquisition-related intangible assets (4)	73	73	78
Adjusted net income	1,547	1,091	1,560
Adjusted net income available to common shareholders	1,520	1,065	1,537

(1) Adjusted results are on a non-GAAP basis and are discussed in the Non-GAAP and Other Financial Measures section.

(2) Taxable equivalent basis (teb) amounts of \$9 million in Q1-2025, Q4-2024 and Q1-2024, respectively. These amounts were recorded in net interest income, revenue and in provision for income taxes.

(3) Acquisition and integration costs related to the acquisition of AIR MILES, recorded in non-interest expense.

(4) Amortization of acquisition-related intangible assets and any impairments, recorded in non-interest expense.

The Personal and Commercial Banking (P&C) operating group represents the sum of our two retail and commercial operating segments, Canadian Personal and Commercial Banking (Canadian P&C) and U.S. Personal and Commercial Banking (U.S. P&C). The P&C banking business reported net income was \$1,474 million, a decrease of \$7 million or relatively unchanged from the prior year, and an increase of \$468 million or 46% from the prior quarter. These operating segments are reviewed separately in the sections that follow.

Refer to the Non-GAAP and Other Financial Measures section for further information on non-GAAP amounts, measures and ratios, including adjusting items in this Review of Operating Groups' Performance section.

(1) Adjusted results and ratios are on a non-GAAP basis and are discussed in the Non-GAAP and Other Financial Measures section.

(2) Acquisition and integration costs related to the acquisition of AIR MILES, recorded in non-interest expense.

(3) Amortization of acquisition-related intangible assets and any impairments, recorded in non-interest expense.

(4) Return on equity is based on allocated capital. Effective the first quarter of fiscal 2025, the capital allocation rate increased to 12.0% of risk weighted assets, compared with 11.5% in fiscal 2024. For further information, refer to the Non-GAAP and Other Financial Measures section.

(5) Return on equity and PCL ratios are presented on an annualized basis.

Certain comparative figures have been reclassified to conform with the current period's presentation.

Q1 2025 vs. Q1 2024

Canadian P&C reported net income was \$894 million, a decrease of \$27 million or 3% from the prior year.

Total revenue was \$3,065 million, an increase of \$287 million or 10% from the prior year. Net interest income increased \$244 million or 11%, primarily due to balance growth and higher net interest margins. Non-interest revenue increased \$43 million or 7%, primarily due to gains on investments in our commercial business, higher deposit fee revenue and card-related revenue, partially offset by lower lending fee revenue, reflecting the impact of the transition of bankers' acceptances exposures to loans. Net interest margin of 2.79% increased 2 basis points from the prior year, primarily due to higher loan margins, partially offset by loans growing faster than deposits and lower deposit margins.

Personal and Business Banking revenue increased \$189 million or 9%, due to higher net interest income and non-interest revenue. Commercial Banking revenue increased \$98 million or 13%, due to higher net interest income.

Total provision for credit losses was \$542 million, an increase of \$247 million from the prior year. The provision for credit losses on impaired loans was \$491 million, an increase of \$253 million, due to higher provisions in Commercial Banking and unsecured consumer lending. There was a \$51 million provision for credit losses on performing loans in the current quarter, compared with a \$57 million provision in the prior year.

Non-interest expense was \$1,290 million, an increase of \$80 million or 7% from the prior year, primarily driven by higher employee-related expenses and technology costs.

Average gross loans and acceptances increased \$20.3 billion or 6% from the prior year to \$337.6 billion. Personal and Business Banking loan balances increased 6%, primarily reflecting growth in residential mortgage balances. Commercial Banking loan balances increased 7% and credit card balances increased 11%. Average deposits increased \$25.1 billion or 9% to \$314.0 billion. Personal and Business Banking deposits increased 7%, primarily due to strong growth in term deposits. Commercial Banking deposits increased 13%.

Q1 2025 vs. Q4 2024

Reported net income increased \$144 million or 19% from the prior quarter.

Total revenue increased \$131 million or 4% from the prior quarter. Net interest income increased \$81 million or 4%, primarily due to higher balances and net interest margins. Non-interest revenue increased \$50 million or 8%, primarily due to higher card-related revenue, higher gains on investments in our commercial business and higher deposit fee revenue. Net interest margin increased 5 basis points from the prior quarter, primarily due to higher loan and deposit margins, partially offset by loans growing faster than deposits.

Personal and Business Banking revenue increased \$89 million or 4% and Commercial Banking revenue increased \$42 million or 5%, both due to higher net interest income and non-interest revenue.

Total provision for credit losses decreased \$36 million from the prior quarter. The provision for credit losses on impaired loans increased \$51 million, largely due to higher provisions in Personal and Business Banking. There was a \$51 million provision for credit losses on performing loans in the current quarter, compared with a \$138 million provision in the prior quarter.

Non-interest expense decreased \$29 million or 2% from the prior quarter, driven by lower employee-related expenses, lower advertising costs and lower acquisition and integration costs.

Average gross loans and acceptances increased \$4.6 billion or 1% from the prior quarter. Personal and Business Banking loan balances increased 1%, Commercial Banking loan balances increased 2% and credit card balances increased 2%. Average deposits were relatively unchanged from the prior quarter, with growth in chequing and savings deposits largely offset by lower term deposits.

Refer to the Non-GAAP and Other Financial Measures section for further information on non-GAAP amounts, measures and ratios, including adjusting items in this Review of Operating Groups' Performance section.

(1) Adjusted results and ratios are on a non-GAAP basis and are discussed in the Non-GAAP and Other Financial Measures section.

(2) Taxable equivalent basis (teb) amounts of \$9 million in Q1-2025, Q4-2024 and Q1-2024, respectively. These amounts were recorded in net interest income revenue and provision for income taxes, and were reflected in the ratios. On a source currency basis: US\$6 million in both Q1-2025 and Q4-2024, and US\$7 million in Q1-2024.

(3) Amortization of acquisition-related intangible assets and any impairments, recorded in non-interest expense. On a source currency basis: Q1-2025 US\$66 million, Q4-2024 US\$68 million, Q1-2024 US\$75 million.

(4) Return on equity is based on allocated capital. Effective the first quarter of fiscal 2025, the capital allocation rate increased to 12.0% of risk weighted assets, compared with 11.5% in fiscal 2024. For further information, refer to the Non-GAAP and Other Financial Measures section.

(5) Return on equity and PCL ratios are presented on an annualized basis.

Certain comparative figures have been reclassified to conform with the current period's presentation.

Q1 2025 vs. Q1 2024

U.S. P&C reported net income was \$580 million, an increase of \$20 million or 4% from the prior year. The impact of the stronger U.S. dollar increased revenue, expenses and net income by 7%, respectively. All amounts in the remainder of this section are presented on a U.S. dollar basis.

Reported net income was \$407 million, a decrease of \$12 million or 3% from the prior year.

Total revenue was \$1,871 million, an increase of \$38 million or 2% from the prior year. Net interest income was relatively unchanged from the prior year, with higher deposit balances offset by lower commercial loan balances and lower net interest margins. Non-interest revenue increased \$34 million or 11% from the prior year, due to higher lending and deposit fee revenue, partially offset by lower card-related revenue. Net interest margin of 3.85% decreased 1 basis point, primarily due to lower deposit margins, partially offset by deposits growing faster than loans.

Personal and Business Banking revenue decreased \$10 million or 1%, due to lower net interest income and non-interest revenue. Commercial Banking revenue increased \$48 million or 4% due to higher net interest income and non-interest revenue.

Total provision for credit losses was \$287 million, an increase of \$70 million from the prior year. The provision for credit losses on impaired loans was \$217 million, an increase of \$80 million, due to higher provisions in Commercial Banking. There was a \$70 million provision for credit losses on performing loans in the current quarter, compared with a \$80 million provision in the prior year.

Non-interest expense was \$1,075 million, a decrease of \$19 million or 2%, primarily driven by realized cost synergies related to the Bank of the West acquisition and our focus on operational efficiencies, and lower deposit insurance and advertising costs, partially offset by higher technology costs.

Average gross loans and acceptances decreased \$1.1 billion or 1% from the prior year to \$150.9 billion, and increased 2%, excluding sale of the recreational vehicle loan portfolio in the prior year. Personal and Business Banking loan balances increased 1% and Commercial Banking loan balances decreased 1%. Average total deposits increased \$7.6 billion or 5% from the prior year. Personal and Business Banking deposits increased 5% and Commercial Banking deposits increased 4%.

Q1 2025 vs. Q4 2024

Reported net income increased \$324 million from the prior quarter. The impact of the stronger U.S. dollar increased revenue and expenses by 5% and net income by 11%. All amounts in the remainder of this section are presented on a U.S. dollar basis.

Reported net income increased \$216 million from the prior quarter, primarily due to lower provisions for credit losses.

Total revenue increased \$61 million or 3% from the prior quarter. Net interest income increased \$35 million or 2%, due to growth in balances and higher net interest margins. Non-interest revenue increased \$26 million or 8%, primarily due to higher deposit and lending fee revenue. Net interest margin of 3.85% increased 7 basis points from the prior quarter, driven by higher loan and deposit margins, as well as deposits growing faster than loans.

Personal and Business Banking revenue increased \$19 million or 3% and Commercial Banking revenue increased \$42 million or 4%, both due to higher net interest income and non-interest revenue.

Total provision for credit losses decreased \$222 million from the prior quarter. The provision for credit losses on impaired loans decreased \$103 million, largely due to lower provisions in Commercial Banking. There was a \$70 million provision for credit losses on performing loans in the current quarter, compared with a \$189 million provision in the prior quarter.

Non-interest expense decreased \$23 million or 2% from the prior quarter, primarily due to lower advertising and other operating costs, partially offset by higher employee-related costs.

Average gross loans and acceptances were relatively unchanged from the prior quarter. Commercial Banking loan balances were relatively unchanged and Personal and Business Banking loan balances increased 2%. Average total deposits increased \$1.0 billion or 1% from the prior quarter. Commercial Banking deposits increased 1% and Personal and Business Banking deposits were relatively unchanged.

Refer to the Non-GAAP and Other Financial Measures section for further information on non-GAAP amounts, measures and ratios, including adjusting items in this Review of Operating Groups' Performance section.

Q1 2025 vs. Q1 2024

BMO Wealth Management reported net income was \$369 million, an increase of \$129 million or 53% from the prior year. Wealth and Asset Management reported net income was \$286 million, an increase of \$99 million or 52%, and Insurance net income was \$83 million, an increase of \$30 million or 57%.

Total revenue was \$1,586 million, an increase of \$258 million or 19% from the prior year. Revenue in Wealth and Asset Management was \$1,452 million, an increase of \$205 million or 16%, primarily due to the impact of stronger global markets and net sales, strong balance growth, higher transaction revenue and the impact of the stronger U.S. dollar. Insurance revenue was \$134 million, an increase of \$53 million or 64%, primarily due to favourable market movements in the current quarter.

Non-interest expense was \$1,095 million, an increase of \$98 million or 10%, primarily due to higher employee-related expenses, including higher revenue-based costs and investment in talent, and the impact of the stronger U.S. dollar.

Assets under management increased \$90.3 billion or 25% from the prior year to \$450.6 billion, driven by stronger global markets, higher net client assets and the impact of foreign exchange movements. Assets under administration increased \$74.7 billion or 23% to \$406.3 billion, primarily due to stronger global markets and the impact of foreign exchange movements. Average gross loans increased 10% and average deposits increased 12%.

Q1 2025 vs. Q4 2024

Reported net income increased \$43 million or 13% from the prior quarter. Wealth and Asset Management reported net income increased \$13 million or 4%, and Insurance net income increased \$30 million or 56%.

Total revenue increased \$100 million or 7% from the prior quarter. Wealth and Asset Management revenue increased \$53 million or 4%, primarily due to the impact of stronger global markets and net sales, higher transaction revenue, higher net interest income and the impact of the stronger U.S. dollar. Insurance revenue increased \$47 million or 54%, primarily due to favourable market movements in the current quarter relative to the prior quarter.

Non-interest expense increased \$71 million or 7%, primarily due to higher stock-based compensation for employees eligible to retire that are expensed in the first quarter of each year, higher revenue-based costs and the impact of the stronger U.S. dollar.

Assets under management increased \$27.9 billion or 7% from the prior quarter, reflecting stronger global markets, higher net client assets and the impact of foreign exchange movements. Assets under administration increased \$45.1 billion or 12%, primarily due to stronger global markets and the impact of foreign exchange movements. Average gross loans increased 4% and average deposits increased 7%.

Refer to the Non-GAAP and Other Financial Measures section for further information on non-GAAP amounts, measures and ratios, including adjusting items in this Review of Operating Groups' Performance section.

(1) Adjusted results and ratios are on a non-GAAP basis and are discussed in the Non-GAAP and Other Financial Measures section.

(2) Beginning January 1, 2024, we treated certain Canadian dividends as non-deductible for tax purposes, due to legislation that was enacted in the third quarter of fiscal 2024. As a result, we no longer report this revenue on a taxable equivalent basis (teb): \$nil in Q1-2025, \$2 million in Q4-2024 and \$19 million in Q1-2024. On a source currency basis for our U.S. businesses: \$nil in Q1-2025, \$1 million in Q4-2024 and \$nil in Q1-2024. These amounts were recorded in net interest income and provision for income taxes, and reflected in the ratios. For further information, refer to the Other Regulatory Developments section of BMO's 2024 Annual MD&A.

(3) Clearpool and Radicle pre-tax acquisition and integration costs, recorded in non-interest expense.

(4) Amortization of acquisition-related intangible assets and any impairments, recorded in non-interest expense. Q4-2024 included an \$18 million pre-tax write-down related to the acquisition of Radicle.

(5) Return on equity is based on allocated capital. Effective the first quarter of fiscal 2025, the capital allocation rate increased to 12.0% of risk weighted assets, compared with 11.5% in fiscal 2024. For further information, refer to the Non-GAAP and Other Financial Measures section.

(6) Return on equity and PCL ratios are presented on an annualized basis.

Q1 2025 vs. Q1 2024

BMO Capital Markets reported net income was \$587 million, an increase of \$194 million or 49% from the prior year.

Total revenue was \$2,073 million, an increase of \$484 million or 30% from the prior year. Global Markets revenue increased \$409 million or 43%, reflecting strong performance across all trading products and the impact of the stronger U.S. dollar. Investment and Corporate Banking revenue increased \$75 million or 12%, due to higher corporate banking revenue, debt underwriting revenue and the impact of the stronger U.S. dollar.

Total provision for credit losses was \$46 million, an increase of \$68 million from the prior year. The provision for credit losses on impaired loans was \$35 million, an increase of \$24 million from the prior year. There was a provision of \$11 million for credit losses on performing loans, compared with a recovery of \$33 million in the prior year.

Non-interest expense was \$1,255 million, an increase of \$139 million or 12% from the prior year, driven by higher performance-based compensation, technology costs and the impact of the stronger U.S. dollar.

Average gross loans and acceptances of \$86.6 billion increased \$4.3 billion or 5% from the prior year.

Q1 2025 vs. Q4 2024

Reported net income increased \$336 million from the prior quarter, primarily due to strong revenue growth and lower provisions for credit losses.

Total revenue increased \$473 million or 30% from the prior quarter. Global Markets revenue increased \$423 million or 45%, primarily due to higher trading revenue across all trading products and the impact of the stronger U.S. dollar. Investment and Corporate Banking revenue increased \$50 million or 8%, primarily due to higher debt underwriting revenue, lower mark-downs on the held-for-sale loan portfolio and the impact of the stronger U.S. dollar, partially offset by lower advisory fee revenue.

Total provision for credit losses was \$46 million, a decrease of \$165 million from the prior quarter. The provision for credit losses on impaired loans was \$35 million, a decrease of \$168 million from the prior quarter. There was a provision of \$11 million for credit losses on performing loans, compared with a provision of \$8 million in the prior quarter.

Non-interest expense increased \$168 million or 15% from the prior quarter, driven by higher performance-based compensation, the impact of stock-based compensation for employees eligible to retire that is expensed in the first quarter of each year and the impact of the stronger U.S. dollar.

Average gross loans and acceptances increased \$4.2 billion or 5% from the prior quarter.

Refer to the Non-GAAP and Other Financial Measures section for further information on non-GAAP amounts, measures and ratios, including adjusting items in this Review of Operating Groups' Performance section.

Total revenue	(19)	460	(106)
Total provision for (recovery of) credit losses	4	(2)	19
Non-interest expense	57	(436)	405
Provision for (recovery of) income taxes (teb)	(32)	221	(135)
Reported net income (loss)	(48)	677	(395)
Adjusted total revenue	(19)	24	26
Adjusted non-interest expense	21	-	51
Adjusted net income (loss)	(22)	35	(20)

(1) Adjusted results are on a non-GAAP basis and are discussed in the Non-GAAP and Other Financial Measures section.

(2) Effective the first quarter of fiscal 2024, balances and the associated revenue, expenses and provisions for credit losses related to our Canadian and U.S. indirect retail auto financing business, previously reported in Personal and Commercial Banking, are reported in Corporate Services, reflecting the exit and wind-down of this business unit.

(3) Acquisition and integration costs related to the acquisition of Bank of the West, recorded in non-interest expense.

(4) Group taxable equivalent basis (teb) offset amounts for our U.S. businesses recorded in revenue and provision for (recovery of) income taxes: US\$6 million in Q1-2025, US\$7 million in both Q4-2024 and Q1-2024.

Q1 2025 vs. Q1 2024

Corporate Services reported net loss was \$292 million, compared with reported net loss of \$822 million in the prior year, and adjusted net loss was \$220 million, compared with adjusted net loss of \$316 million.

The lower reported net loss was primarily due to the impact of the FDIC special assessment and the net accounting loss related to the sale of a portfolio of recreational vehicle loans in the prior year, and lower acquisition and integration costs, partially offset by the impact of aligning accounting policies for employee vacation across legal entities in the current quarter.

The lower adjusted net loss, which excluded the above items, reflected higher revenue, primarily due to the impact of treasury-related activities and a lower provision for credit losses, partially offset by higher expenses, including the impact of the consolidation of certain retirement benefit plans in the prior year.

Q1 2025 vs. Q4 2024

Reported net loss was \$292 million, compared with reported net income of \$721 million in the prior quarter, and adjusted net loss was \$220 million, compared with adjusted net loss of \$147 million.

Reported net income in the prior quarter included the reversal of the fiscal 2022 legal provision. On an adjusted basis, the higher net loss was primarily due to higher expenses reflecting the seasonal impact of employee benefits.

Refer to the Non-GAAP and Other Financial Measures section for further information on non-GAAP amounts, measures and ratios, including adjusting items in this Review of Operating Groups' Performance section.

(1) Adjusted results exclude certain items from reported results and are used to calculate our adjusted measures as presented in the table above. Management assesses performance on a reported basis and an adjusted basis, and considers both to be useful. For further information on adjusting items, refer to the Non-GAAP and Other Financial Measures section. For details on the composition of non-GAAP amounts, measures and ratios, as well as supplementary financial measures, refer to the Glossary of Financial Terms.

(2) Net income and earnings from our business operations are attributable to shareholders by way of EPS and diluted EPS. Adjusted EPS and adjusted diluted EPS are non-GAAP measures. For further information, refer to the Non-GAAP and Other Financial Measures section.

Certain comparative figures have been reclassified to conform with the current period's presentation and for changes in accounting policy.

Earnings in certain quarters are impacted by seasonal factors, such as higher employee expenses related to employee benefits and stock-based compensation for employees eligible to retire which are recorded in the first quarter of each year, as well as the impact of fewer days in the second quarter relative to other quarters. Results are also impacted by foreign currency translation, primarily changes in the U.S. dollar relative to the Canadian dollar. Quarterly EPS is impacted by the semi-annual payment of dividends on certain equity instruments. The table above outlines summary results for the second quarter of fiscal 2023 through the first quarter of fiscal 2025.

On June 1, 2023, we completed the acquisition of AIR MILES, which contributed to the increase in revenue and expenses in our Canadian P&C business beginning the third quarter of fiscal 2023.

A number of specified items impacted reported results in certain quarters. The first quarter of fiscal 2025 included the impact of aligning accounting policies for employee vacation across legal entities. The fourth quarter of fiscal 2024 included a reversal of a fiscal 2022 legal provision, including accrued interest, associated with a predecessor bank, M&I Marshall and Ilsley Bank. Fiscal 2024 and the first quarter of fiscal 2025 included the impact of a FDIC special assessment in each quarter. The first quarter of fiscal 2024 included a loss on the sale of a portfolio of recreational vehicle loans related to balance sheet optimization. The third quarter of fiscal 2023 included the impact of certain tax measures enacted by the Canadian government. The second quarter of fiscal 2023 included an initial provision for credit losses on the purchased Bank of the West performing loan portfolio. All periods included acquisition and integration costs, as well as the amortization of acquisition-related intangible assets and any impairments.

Financial performance benefitted from the strength and diversification of our businesses.

Revenue growth in Canadian P&C reflected good customer acquisition and volume growth, with higher net interest margins. U.S. P&C revenue performance has been impacted by a more muted U.S. banking environment, with reduced loan demand and higher deposit costs. Revenue in BMO Wealth Management benefitted from stronger global markets and steady growth in client assets, while high interest rates resulted in a shift in deposit mix to term deposits and reduced margins, a trend that abated in the first quarter of fiscal 2025 with reductions in the Bank of Canada rate policy. Insurance revenue is subject to variability resulting from market-related impacts. BMO Capital Markets' revenue is largely driven by market conditions that affect client activity. Trading activity reflected strong performance in the first quarter of fiscal 2025, driven by stronger client flows.

Over the past eight quarters, the higher interest rate environment has had a meaningful impact on credit outcomes in both wholesale and consumer portfolios, resulting in higher provisions on impaired loans. Provisions on performing loans have been impacted by credit migration and uncertain credit conditions, partially offset by improvements in the macro-economic outlook.

Non-interest expense reflected strong expense management, while we continue to invest in our business to drive revenue growth. The first quarter of fiscal 2025 included the impact of aligning accounting policies for employee vacation across legal entities. The fourth quarter of fiscal 2024 benefitted from the reversal of the fiscal 2022 legal provision. The third quarter of fiscal 2023 included severance costs associated with accelerating operational efficiencies across the enterprise, which combined with the benefit of realized cost synergies, have tempered expense growth in recent quarters.

The effective tax rate has varied with legislative changes; changes in tax policy, including their interpretation by tax authorities and the courts; earnings mix, including the relative proportion of earnings attributable to the different jurisdictions in which we operate, the level of pre-tax income, and the level of investments or securities which generate tax credits, or tax-exempt income from securities. The reported effective tax rate was impacted by the elimination of the income tax deduction for certain Canadian dividends in fiscal 2024.

Refer to the Non-GAAP and Other Financial Measures section for further information on non-GAAP amounts, measures and ratios, including adjusting items in this Summary Quarterly Earnings Trend section.

Transactions with Related Parties

In the ordinary course of business, we provide banking services to our key management personnel on the same terms that we offer to our preferred customers for those services. Key management personnel are defined as those persons having authority and responsibility for planning, directing and/or controlling the activities of an entity, being the directors and most senior executives of the bank. We provide banking services to our joint ventures and associates on the same terms offered to our customers for these services. We also offer employees a subsidy on annual credit card fees.

The bank's policies and procedures for related party transactions did not materially change from October 31, 2024, as described in Note 28 of the audited annual consolidated financial statements of BMO's 2024 Annual Report.

Off-Balance Sheet Arrangements

We enter into a number of off-balance sheet arrangements in the normal course of operations. The most significant of these are structured entities, credit instruments and guarantees, which are described in the Off-Balance Sheet Arrangements section of BMO's 2024 Annual Report. We consolidate our own securitization vehicles, certain capital and funding vehicles, and other structured entities created to meet our own, as well as our customers' needs. We do not consolidate our customer securitization vehicles, certain capital vehicles, various BMO-managed funds or various other structured entities where investments are held. There have been no significant changes to the bank's off-balance sheet arrangements since October 31, 2024.

Accounting Policies and Critical Accounting Estimates and Judgments

Material accounting policies are described in BMO's 2024 Annual Report and in the notes to our annual consolidated financial statements for the year ended October 31, 2024, and in Note 1 of the unaudited interim consolidated financial statements, together with a discussion of certain accounting estimates that are considered particularly important as they require management to make significant judgments, some of which relate to matters that are inherently uncertain. Readers are encouraged to review the discussion in Note 1 of the audited annual consolidated financial statements of BMO's 2024 Annual Report, as well as the updates provided in Note 1 of the unaudited interim consolidated financial statements.

Allowance for Credit Losses

The allowance for credit losses (ACL) consists of allowances on impaired loans, which represent estimated losses related to impaired loans provided for but not yet written off, and allowances on performing loans, which is the bank's best estimate of impairment in the existing portfolio for loans that have not yet been individually identified as impaired. Expected credit losses (ECL) are calculated on a probability-weighted basis, based on the economic scenarios described below, and are calculated for each exposure in the portfolio as a function of the probability of default (PD), exposure at default (EAD) and loss given default (LGD), with the timing of the loss also considered. Where there has been a significant increase in credit risk, remaining lifetime ECL is recorded; otherwise, 12 months of ECL is generally recorded. A significant increase in credit risk considers many different factors and will vary by product and risk segment. The main factors considered in making this determination are the change in PD since origination and certain other criteria, such as delinquency and watchlist status. We may apply experienced credit judgment to reflect factors not captured in the results produced by the ECL models, as we deem necessary. In the current quarter, we applied experienced credit judgment to reflect the impact of the uncertain environment, including potential tariffs, on credit conditions and the economy. We have controls and processes in place to govern the ECL process, including judgments and assumptions used in determining the allowance on performing loans. These judgments and assumptions may change over time, and the impact of any such change will be recorded in future periods.

In establishing our allowance for performing loans, we attach probability weightings to economic scenarios which are representative of our view of economic and market conditions at the reporting date. The base scenario represents our view of the most probable outcome, as well as upside, downside, and severe downside scenarios, all developed by our Economics group.

When changes in economic performance are assessed, we use real GDP as the basis, which acts as the key driver for movements in many of the other economic and market variables used, including equity market and volatility indices, corporate credit spreads, unemployment rates, housing prices and consumer credit. In addition, we also consider industry-specific variables, where applicable. Many of the variables have a high degree of interdependency, and as such, there is no single variable to which the allowance is sensitive.

Our total allowance for credit losses as at January 31, 2025, was \$5,438 million (\$4,936 million as at October 31, 2024) and comprised an allowance on performing loans of \$4,480 million and an allowance on impaired loans of \$958 million (\$4,205 million and \$731 million, respectively, as at October 31, 2024). The allowance on performing loans increased \$275 million from the fourth quarter of 2024, largely driven by the impact of the

uncertain economic environment, including potential tariffs, on future credit conditions, portfolio credit migration, and movements in foreign exchange rates, partially offset by lower balances in certain portfolios.

Information on the Provision for Credit Losses for the three months ended January 31, 2025, can be found in the Total Provision for Credit Losses section.

For additional information, refer to the Risk Management section, Allowance for Credit Losses section of BMO's 2024 Annual Report, Note 4 of the audited annual consolidated financial statements, as well as Note 3 of the unaudited interim consolidated financial statements.

This Accounting Policies and Critical Accounting Estimates and Judgments section contains forward-looking statements. Please refer to the Caution Regarding Forward-Looking Statements.

Disclosure for Global Systemically Important Banks (G-SIB)

As a domestic systemically important bank (D-SIB), OSFI requires that we disclose on an annual basis the 13 indicators comprising the assessment methodology of Global Systemically Important Banks (G-SIB). These indicators measure the impact a bank's failure would have on the global financial system and wider economy. The indicators reflect the size of banks, their interconnectedness, the lack of alternative infrastructure for services banks provide, their global activity and complexity. This methodology is outlined in a paper, *Global systemically important banks: Updated assessment methodology and the additional loss absorbency requirement*, issued by the Basel Committee on Banking Supervision (BCBS) in July 2018. As required under the current methodology, the indicators are calculated based on specific instructions issued by the BCBS, and as a result, the measures used may not be based on the most recent version of Basel III framework. Therefore, values may not be consistent with other measures used in this report. Based on 2023 fiscal year indicators, the bank was not designated as a G-SIB in November 2024. If the bank were designated as a G-SIB in the future, the bank's capital ratio requirements would include the higher of the D-SIB and G-SIB surcharges, both of which are currently set at 1%, and the higher of the D-SIB and G-SIB leverage buffer requirements, both of which are currently set at 0.5%. In addition, the bank may be subject to increased supervisory expectations and requirements.

Indicator values have been reported based on regulatory requirements for consolidation and therefore, insurance and other non-banking information is only included insofar as it is included in the regulatory consolidation of the group, or as otherwise specified by the assessment methodology. This level of consolidation differs from that used in the consolidated financial statements. Results may therefore not be comparable to other disclosures in this report.

The table below provides the fiscal year-end data of the 13 indicators for the bank. During the fiscal 2024 year, notional amounts of over-the-counter derivatives increased, primarily due to higher interest rate derivative activity. The higher underwritten transactions were primarily driven by favourable market conditions. Other year-over-year movements in indicators reflect normal changes in business activity as well as accounting policy changes.

Disclosure for Global Systemically Important Banks

TABLE 21

(Canadian \$ in millions)		As at October 31	
		2024	2023
A. Cross-jurisdictional activity	1. Cross-jurisdictional claims	802,942	683,915
	2. Cross-jurisdictional liabilities	707,844	616,848

	Trading volume fixed income sub indicator	9,195,314	5,163,888
	Trading volume equities and other securities sub indicator	5,246,195	4,361,851
	11. Notional amount of over-the-counter (OTC) derivatives	22,825,043	11,615,227
E. Complexity	12. Trading, FVTPL and FVOCI securities (2)	81,342	55,793
	13. Level 3 assets	7,148	6,028

(1) Included intercompany transactions that are cleared through a correspondent bank.

(2) FVTPL: Fair value through profit or loss; FVOCI: Fair value through other comprehensive income.

Future Changes in Accounting Policies

We monitor the potential changes proposed by the International Accounting Standards Board (IASB) and analyze the effect that changes in the standards may have on BMO's financial reporting and accounting policies. New standards and amendments to existing standards, which are effective for the bank in the future, can be found in Note 1 of the audited annual consolidated financial statements of BMO's 2024 Annual Report.

Other Regulatory Developments

We continue to monitor and prepare for regulatory developments, including those referenced elsewhere in this document.

For a comprehensive discussion of other regulatory developments, refer to the Enterprise-Wide Capital Management section, the Risks That May Affect Future Results section, the Liquidity and Funding Risk section, and the Legal and Regulatory Risk section of BMO's 2024 Annual Report.

Global Minimum Tax

On June 20, 2024, the Canadian government enacted legislation that contained a number of measures, including the *Global Minimum Tax Act*, which introduced a 15% global minimum tax on income earned by large multinational groups. The global minimum tax rules are effective for our fiscal year beginning November 1, 2024, and as a result, our effective tax rate increased by approximately 65 basis points for the three months ended January 31, 2025.

Canadian Sustainability Disclosure Standards

On December 18, 2024, the Canadian Sustainability Standards Board (CSSB) issued its inaugural standards: Canadian Sustainability Disclosure Standards (CSDS) 1, General Requirements for Disclosure of Sustainability-related Financial Information, and CSDS 2, Climate-related Disclosures. These standards represent a significant milestone in promoting consistency and comparability in sustainability reporting by largely aligning with the global baseline developed by the International Sustainability Standards Board. The CSSB standards are currently a voluntary framework and we will continue to monitor developments regarding any mandatory requirements to adopt.

Risk Management

BMO's risk management policies and processes to identify, measure, manage, monitor, mitigate and report its credit and counterparty, market, insurance, liquidity and funding, operational non-financial, including artificial intelligence, cyber, information and other technology-related risks, legal and regulatory, strategic, environmental and social, and reputation risks are outlined in the Enterprise-Wide Risk Management section of BMO's 2024 Annual Report.

Top and Emerging Risks That May Affect Future Results

BMO's top and emerging risks and other factors that may affect future results are described in the Enterprise-Wide Risk Management section of BMO's 2024 Annual Report. The following is an update to the 2024 Annual Report.

Update on General Economic Conditions and Trade Disputes

Economic conditions impact BMO's financial results, operational efficiency, strategic direction and our clients, and customers. Sources of possible risk to economic conditions may include the rate of GDP growth, monetary and fiscal policies, interest rates, unemployment levels and geopolitical risk.

The Canadian economy has shown signs of improvement, however, trade protectionism and wide-spread tariffs by the United States could significantly weaken the economy. The U.S. economy could slow in response to retaliatory tariffs. Significant changes to the economic environment and increased economic uncertainty may affect our operations, clients, and customers. It is likely that tariffs, if widespread and prolonged, would lead to an increase in provisions for credit losses, volatility in capital markets and slower loan growth. Management conducts regular monitoring of the economic environment to proactively take appropriate measures to respond to uncertainties and reduce the impact on our results.

For further information on the North American economic outlook, refer to the Economic Developments and Outlook section.

Real Estate Secured Lending

Real Estate Secured Lending includes residential mortgage and home equity line of credit (HELOC) exposures. The following tables provide a breakdown of residential mortgages and home equity lines of credit by geographic region, as well as insured and uninsured balances. Residential mortgages and home equity lines of credit are secured by residential properties.

Canadian Real Estate Secured Lending

TABLE 22

(Canadian \$ in millions, except as noted)	Residential mortgages	Amortizing home equity lines of credit	Total amortizing real estate secured lending	Non-amortizing real estate secured lending	Total Canadian real estate secured lending
As at January 31, 2025	160,123	36,360	196,483	13,548	210,031
As at October 31, 2024	158,910	36,326	195,236	13,614	208,850

Residential Mortgages ⁽¹⁾

(1) Reporting methodologies are in accordance with OSFI's Residential Mortgage Underwriting Practices and Procedures (B-20) Guideline.

(2) Region is based upon address of the property mortgaged.

(3) Insured mortgages are defined as mortgages that are insured individually or in bulk through an eligible insurer (i.e., CMHC, Sagen MI Canada™).

(4) Loan-to-value (LTV) is based on original outstanding balances for mortgages and authorized amounts for HELOCs, divided by the value of the collateral at point of origination.

	As at October 31, 2024							
	Amortization period							
	< 5 Years %	6-10 Years %	11-15 Years %	16-20 Years %	21-25 Years %	26-30 Years %	31-35 Years %	> 35 Years %
Canada (3)	0.7%	2.6%	6.6%	16.1%	33.8%	26.5%	3.6%	10.1%
United States (4)	0.4%	1.7%	4.0%	2.4%	9.0%	82.3%	0.1%	0.1%
Total	0.6%	2.5%	6.2%	13.8%	29.6%	35.9%	3.0%	8.4%

(1) In Canada, the remaining amortization is based on the current balance, interest rate, customer payment amount and payment frequency. The contractual payment schedule is used in the United States.

(2) Reporting methodologies are in accordance with OSFI's B-20 Guideline.

(3) As a result of increases in interest rates, the portfolio included \$2.6 billion (\$9.3 billion as at October 31, 2024) of variable-rate mortgages in negative amortization, with all of the contractual payments in the current period being applied to interest, and the portion of interest due that is not met by each payment added to the principal.

(4) A large proportion of U.S.-based mortgages in the longer-amortization band are primarily associated with modification programs for troubled borrowers and regulator-initiated mortgage refinancing programs.

International Exposures

BMO's geographic exposures outside of Canada and the United States are subject to a risk management framework that incorporates assessments of the economic and political risk in each region or country. These exposures are also managed within limits based on product, entity and country of ultimate risk. Our total net exposure to these regions is set out in the table below.

The table outlines total net exposure for funded lending and undrawn commitments, securities (including cash products, traded credit and credit default swap activity), repo-style transactions and derivatives. Repo-style transactions and derivatives exposure are reported as mark-to-market value. Derivatives exposures incorporate transaction netting where master netting agreements with counterparties have been entered into, and collateral offsets for counterparties where a Credit Support Annex is in effect.

Exposure by Region

TABLE 26

(Canadian \$ in millions)	As at January 31, 2025												As at October 31, 2024

Caution

This Risk Management section contains forward-looking statements. Please refer to the Caution Regarding Forward-Looking Statements.

Market Risk

BMO's market risk management practices and key measures are outlined in the Market Risk section of BMO's 2024 Annual Report.

Linkages between Balance Sheet Items and Market Risk Disclosures

The table below presents items reported in our Consolidated Balance Sheet that are subject to market risk, comprising balances that are subject to either traded risk or non-traded risk measurement techniques.

TABLE 27

(Canadian \$ in millions)	As at January 31, 2025				As at October 31, 2024				Primary risk factors for non-traded risk balances
	Consolidated	Subject to market risk		Not subject to market risk	Consolidated	Subject to market risk		Not subject to market risk	
	Balance Sheet	Traded risk (1)	Non-traded risk (2)		Balance Sheet	Traded risk (1)	Non-traded risk (2)		
Assets Subject to Market Risk									
Cash and cash equivalents	76,460	–	76,460	–	65,098	–	65,098	–	Interest rate
Interest bearing deposits with banks	3,339	191	3,148	–	3,640	201	3,439	–	Interest rate

Other liabilities	141,601	–	83,925	57,676	130,061	–	78,583	51,478	Interest rate
Subordinated debt	8,554	–	8,554	–	8,377	–	8,377	–	Interest rate
Total liabilities	1,380,493	153,832	1,168,985	57,676	1,325,361	134,966	1,138,917	51,478	

(1) Primarily comprises balance sheet items that are subject to the trading and underwriting risk management framework and recorded at fair value through profit or loss.

(2) Primarily comprises balance sheet items that are subject to the structural balance sheet insurance risk management framework and secured financing transactions.

Certain comparative figures have been reclassified to conform with the current period's presentation.

Trading Market Risk Measures

Average Total Trading Value at Risk (VaR) increased quarter-over-quarter, primarily due to higher equity exposures, partially offset by lower interest rate exposures.

Total Trading Value at Risk ⁽¹⁾

TABLE 28

	For the quarter ended January 31, 2025				October 31, 2024	January 31, 2024
	Quarter-end	Average	High	Low	Average	Average
Commodity VaR	6.2	3.4	6.5	2.0	4.1	3.2
Equity VaR	30.7	26.1	31.6	17.4	18.2	13.6
Foreign exchange VaR	1.6	1.6	2.6	0.8	1.5	1.3
Interest rate VaR (2)	23.2	29.2	41.9	22.1	32.7	29.5
Diversification	(22.8)	(21.0)	nm	nm	(24.4)	(17.7)
Total Trading VaR	38.9	39.3	45.4	31.7	32.1	29.9

(1) One-day measure using a 99% confidence interval. Gains are presented in brackets and losses are presented as positive numbers.

(2) Interest rate VaR includes general credit spread risk.

nm - not meaningful

Structural (Non-Trading) Market Risk

Our structural market risk strategy and profile remains consistent with prior periods. The net balance sheet is fully invested in an intermediate duration target interest rate profile. Structural economic value exposure to rising rates and benefit to falling rates increased relative to October 31, 2024, primarily due to modelled deposit pricing being more rate-sensitive at higher projected interest rate levels following the increase in U.S. term market rates during the current quarter.

Structural earnings benefit to rising interest rates and exposure to falling interest rates remained relatively unchanged, relative to October 31, 2024.

Structural Interest Rate Sensitivity ^{(1) (2)}

TABLE 29

(Pre-tax Canadian \$ equivalent in millions)	Economic value sensitivity					Earnings sensitivity over the next 12 months				
	January 31, 2025			October 31, 2024	January 31, 2024	January 31, 2025			October 31, 2024	January 31, 2024
	Canada (3)	United States	Total	Total	Total	Canada (3)	United States	Total	Total	Total
100 basis point increase	(740)	(887)	(1,627)	(1,483)	(1,598)	72	285	357	367	278
100 basis point decrease	659	182	842	660	968	(38)	(198)	(236)	(210)	(296)

(1) Losses are presented in brackets and gains are presented as positive numbers.

(2) Interest rate sensitivities assume an immediate and sustained parallel shift in assumed interest rates across the entire yield curve as at the end of the period, using a constant balance sheet.

(3) Includes Canadian dollar and other currencies.

Insurance Market Risk

Insurance market risk includes interest rate and equity market risk arising from the activities of our BMO Insurance business. We entered into hedging arrangements to mitigate the impact of changes in interest rates on our earnings. The impact of insurance market risk on earnings is reflected in insurance investment results on our Consolidated Statement of Income. The impact of insurance market risk is not reflected in the Structural Interest Rate Sensitivity table above.

The table below reflects the estimated immediate impact on, or sensitivity of, our income before tax to changes in interest rates, including the estimated impact of the above hedging arrangements, and our exposure to equity price risk arising from our investment in equity securities.

TABLE 30

(Pre-tax Canadian \$ in millions)	As at January 31, 2025	As at October 31, 2024
Interest Rate Sensitivity ^{(1) (2)}		
50 basis point increase	3	6
50 basis point decrease	(3)	(9)
Equity Market Sensitivity ⁽³⁾		
10% increase	28	28
10% decrease	(29)	(26)

(1) Estimated impact on, or sensitivity of, income before tax to a 50 basis point increase or decrease in interest rates.

(2) Interest rate sensitivities assume a parallel shift in assumed interest rates across the entire yield curve as at the end of the period with no change in the ultimate risk-free rate.

(3) Estimated impact on, or sensitivity of, income before tax to a 10% increase or decrease in our exposure to equity price risk arising from our investment in equity securities at the reporting date, assuming all other variables remain constant.

Caution

This Market Risk section contains forward-looking statements. Please refer to the Caution Regarding Forward-Looking Statements.

Liquidity and Funding Risk

Liquidity and funding risk is managed under a robust risk management framework. There were no material changes in the framework during the quarter.

BMO continued to maintain a strong liquidity position in the first quarter of 2025, with increases in customer loans and deposits and wholesale funding, primarily driven by the impact of the stronger U.S. dollar. BMO's liquidity metrics, including the Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR), remained well above internal targets and regulatory requirements.

BMO's liquid assets are primarily held in our trading businesses, as well as in liquidity portfolios that are maintained for contingent liquidity risk management purposes and as investments of excess structural liquidity. Liquid assets include unencumbered, high-quality assets that are marketable, can be pledged as security for borrowings, and can be converted to cash in a time frame that meets our liquidity and funding requirements. BMO's liquid assets are summarized in the table below.

In the normal course of business, we may encumber a portion of cash and securities holdings as collateral in support of trading activities and participation in clearing and payment systems in Canada, the United States and abroad. In addition, we may receive liquid assets as collateral and may re-pledge these assets in exchange for cash or as collateral in support of trading activities. Net unencumbered liquid assets, defined as on-balance sheet assets, such as BMO-owned cash and securities and securities borrowed or purchased under resale agreements, plus other off-balance sheet eligible collateral received, less assets encumbered as collateral, totalled \$395.0 billion as at January 31, 2025, compared with \$396.3 billion as at October 31, 2024. The decrease in unencumbered liquid assets was primarily due to lower securities balances partially offset by higher cash balances.

Net unencumbered liquid assets are primarily held at the parent bank level, at BMO Bank N.A., and in our broker/dealer operations. In addition to liquid assets, BMO has access to the Bank of Canada's lending assistance programs, the Federal Reserve Bank discount window in the United States, the Bank of England's Sterling Monetary Framework, and European Central Bank standby liquidity facilities. We do not consider central bank facilities as a source of available liquidity when assessing the soundness of our liquidity position.

In addition to cash and securities holdings, we may also pledge other assets, including mortgages and loans, to raise long-term secured funding. BMO's total encumbered assets and unencumbered liquid assets are summarized in the Asset Encumbrance table.

Liquid Assets

TABLE 31

	As at January 31, 2025					As at October 31, 2024
	Bank-owned assets	Other cash & securities received	Total gross assets (1)	Encumbered assets	Net unencumbered assets (2)	Net unencumbered assets (2)
(Canadian \$ in millions)						
Cash and cash equivalents	76,460	–	76,460	93	76,367	65,018
Deposits with other banks	3,339	–	3,339	–	3,339	3,640
Securities and securities borrowed or purchased under resale agreements						
Sovereigns/Central banks/Multilateral development banks	184,172	103,320	287,492	147,933	139,559	150,126
NHA mortgage-backed securities and U.S. agency mortgage-backed securities and collateralized mortgage obligations	118,770	11,319	130,089	63,078	67,011	61,729
Corporate and other debt	38,925	22,436	61,361	15,396	45,965	43,722
Corporate equity	69,201	61,560	130,761	88,497	42,264	52,329
Total securities and securities borrowed or purchased under resale agreements	411,068	198,635	609,703	314,904	294,799	307,906
NHA mortgage-backed securities (reported as loans at amortized cost) (3)	25,824	–	25,824	5,295	20,529	19,774
Total liquid assets	516,691	198,635	715,326	320,292	395,034	396,338

(1) Gross assets include bank-owned assets and cash and securities received from third parties.

(2) Net unencumbered assets are defined as total gross assets less encumbered assets.

(3) Under IFRS, National Housing Act (NHA) mortgage-backed securities that include mortgages owned by BMO as the underlying collateral are classified as loans. Unencumbered NHA mortgage-backed securities have liquidity value and are included as liquid assets under BMO's Liquidity and Funding Risk Management Framework. This amount is shown as a separate line item, NHA mortgage-backed securities.

(1) Gross assets includes on-balance sheet and off-balance sheet assets.

(2) Pledged as collateral refers to the portion of on-balance sheet assets and other cash and securities that is pledged through repurchase agreements, securities lending, derivative contracts and requirements associated with participation in clearing houses and payment systems. Other encumbered assets include assets that are restricted for legal or other reasons, such as minimum required deposits at central banks, short sales and certain U.S. agency securities that have been sold to third parties but are consolidated under IFRS.

(3) Other unencumbered assets include select liquid asset holdings that management believes are not readily available to support BMO's liquidity requirements. These include securities of \$25.9 billion as at January 31, 2025, and include securities held at BMO's insurance subsidiary, seller financing securities and certain investments held at our merchant banking business. Other unencumbered assets include mortgages and loans that may be securitized to access secured funding.

(4) Loans included in available as collateral represent loans currently lodged at central banks that may be used to access central bank funding. Loans available for pledging as collateral do not include other sources of additional liquidity that may be realized from BMO's loan portfolio, such as incremental securitization, covered bond issuances and U.S. Federal Home Loan Bank (FHLB) advances.

(5) Includes securities, securities borrowed or purchased under resale agreements and NHA mortgage-backed securities (reported as loans at amortized cost).

Total net unencumbered liquid assets by legal entity	395,034	396,338

Funding Strategy

BMO's funding strategy requires that secured and unsecured wholesale funding used to support loans and less liquid assets must have a term (typically maturing in two to ten years) that will support the effective term to maturity of these assets. Secured and unsecured wholesale funding for liquid trading assets is largely shorter term (maturing in one year or less), aligned with the liquidity of the assets being funded, and is subject to limits on aggregate maturities that are permitted across different periods. Supplemental liquidity pools are funded largely with wholesale term funding.

We maintain a large and stable base of customer deposits that, in combination with our strong capital position, is a source of strength. This supports the maintenance of a sound liquidity position and reduces reliance on wholesale funding. Customer deposits totalled \$722.7 billion as at January 31, 2025, increasing from \$711.7 billion as at October 31, 2024, primarily driven by the impact of the stronger U.S. dollar.

Total secured and unsecured wholesale funding outstanding, which largely consists of negotiable marketable securities, was \$263.4 billion as at January 31, 2025, with \$70.1 billion sourced as secured funding and \$193.2 billion sourced as unsecured funding. Wholesale funding outstanding increased from \$259.0 billion as at October 31, 2024, primarily due to the impact of the stronger U.S. dollar. The mix and maturities of BMO's wholesale term funding are outlined in the following table. Additional information on deposit maturities can be found in the Contractual Maturities of Assets and Liabilities and Off-Balance Sheet Commitments section. We maintain a sizeable portfolio of unencumbered liquid assets, totalling \$395.0 billion as at January 31, 2025, that can be monetized to meet potential funding requirements, as described in the Unencumbered Liquid Assets section above.

Wholesale Funding Maturities ⁽¹⁾

Total (4)	11,853	32,523	48,616	49,748	142,740	34,147	86,485	263,372	259,040

(1) Wholesale unsecured funding primarily includes funding raised through the issuance of negotiable marketable securities. Wholesale funding excludes repo transactions which are disclosed in the Contractual Maturities of Assets and Liabilities and Off-Balance Sheet Commitments section, and also excludes ABCP issued by certain ABCP conduits that are not consolidated for financial reporting purposes.

(2) Includes structured notes issued to institutional investors and exchange-traded notes.

(3) Includes credit card, auto and transportation finance loan securitizations.

(4) Total wholesale funding comprised Canadian-dollar-denominated funding totalling \$52.3 billion and U.S.-dollar-denominated and other foreign-currency-denominated funding totalling \$211.1 billion as at January 31, 2025.

Certain comparative figures have been reclassified to conform with the current period's presentation.

Diversification of our wholesale funding sources is an important part of our overall liquidity management strategy. BMO's wholesale funding activities are well-diversified by jurisdiction, currency, investor segment, instrument type and maturity profile. BMO maintains ready access to long-term wholesale funding through various borrowing programs, including a European Note Issuance Program, Canadian, Australian and U.S. Medium-Term Note programs, Canadian and U.S. mortgage securitizations, Canadian credit card loans, auto loans and home equity line of credit (HELOC) securitizations, covered bonds, and Canadian and U.S. senior unsecured deposits.

Our wholesale funding plan seeks to ensure sufficient funding capacity is available to execute our business strategies. The funding plan considers expected maturities, as well as asset and liability growth projected for our businesses in our forecasting and planning processes, and assesses funding needs in relation to the sources available. The funding plan is reviewed annually by the senior management committees with specific related responsibilities and approved by the Risk Review Committee, and is regularly updated to reflect actual results and incorporate updated forecast information.

Additional information on Liquidity and Funding Risk governance can be found in the Liquidity and Funding Risk section of BMO's 2024 Annual Report. Please also see the Risk Management section.

Credit Ratings

The credit ratings assigned to BMO's short-term and senior long-term debt securities by external rating agencies are important in raising both capital and funding to support the bank's business operations. Maintaining strong credit ratings allows us to access the wholesale markets at competitive pricing levels. Should BMO's credit ratings experience a downgrade, our cost of funding may increase and our access to funding and capital through the wholesale markets could be constrained. A material downgrade of BMO's ratings could also have other consequences, including those set out in Note 8 of the audited annual consolidated financial statements of BMO's 2024 Annual Report.

The credit ratings assigned to BMO's senior debt by rating agencies are indicative of high-grade, high-quality issues.

TABLE 35

As at January 31, 2025

Rating agency (1)	Short-term debt	Senior debt (2)	Long-term deposits / Legacy senior debt (3)	Subordinated debt (NVCC)	Outlook
Moody's	P-1	A2	Aa2	Baa1 (hyb)	Stable
S&P	A-1	A-	A+	BBB+	Stable
Fitch	F1+	AA-	AA	A	Stable
DBRS	R-1 (high)	AA (low)	AA	A (low)	Stable

(1) Credit ratings are not recommendations to purchase, hold or sell a financial obligation and do not address the market price or suitability for a particular investor. Ratings are subject to revision or withdrawal at any time by the rating organization.

(2) Subject to conversion under the Bank Recapitalization (Bail-In) Regime.

(3) Long-term deposits / Legacy senior debt includes senior debt issued prior to September 23, 2018 and senior debt issued on or after September 23, 2018 that is excluded from the Bank Recapitalization (Bail-In) Regime.

We are required to deliver collateral to certain counterparties in the event of a downgrade of BMO's current credit rating. The incremental collateral required is based on mark-to-market exposure, collateral valuations and collateral threshold arrangements, as applicable. As at January 31, 2025, we would be required to provide additional collateral to counterparties totalling \$221 million, \$532 million and \$1,076 million, as a result of a one-notch, two-notch and three-notch downgrade, respectively.

Liquidity Coverage Ratio

The Liquidity Coverage Ratio (LCR) is calculated in accordance with OSFI's LAR Guideline and is summarized in the following table. The LCR is calculated on a daily basis as the ratio of the stock of High-Quality Liquid Assets (HQLA) held to total net stressed cash outflows over the next 30 calendar days. BMO's HQLA primarily comprises cash, highly-rated debt issued or backed by governments, highly-rated covered bonds and non-financial corporate debt, and non-financial equities that are part of a major stock index. Net cash flows include outflows from deposits, secured and unsecured wholesale funding, commitments and potential collateral requirements, offset by permitted inflows from loans, securities lending activities and other non-HQLA debt maturing over a 30-day horizon. Weightings prescribed by OSFI are applied to cash flows and HQLA to arrive at the weighted values and the LCR. The LCR does not reflect liquidity in BMO Financial Corp. (BFC) in excess of 100%, because of limitations on the transfer of liquidity between BFC and the parent bank. Canadian domestic systemically important banks (D-SIBs), including BMO, are required to maintain a minimum LCR of 100%. The average daily LCR for the quarter ended January 31, 2025 was 128%, equivalent to a surplus of \$56.3 billion above the regulatory minimum. The LCR decreased 4% from 132% in the prior quarter, as higher HQLA was more than offset by an increase in net cash outflows. While banks are required to maintain an LCR of greater than 100% in normal conditions, they are also expected to be able to utilize HQLA during a period of stress, which may result in an LCR of less than 100% during such a period. The LCR is only one measure of a bank's liquidity position and does not fully capture all of its liquid assets or the funding alternatives that may be available during a period of stress. BMO's total liquid assets are shown in the Liquid Assets table.

TABLE 36

	For the quarter ended January 31, 2025	
	Total unweighted value (average) (1) (2)	Total weighted value (average) (2) (3)
(Canadian \$ in billions, except as noted)

Total net cash outflows		192.4
Liquidity Coverage Ratio (%)		132

* Disclosure is not required under the LCR disclosure standard.

(1) Unweighted values are calculated at market value (for HQLA) or as outstanding balances maturing or callable within 30 days (for inflows and outflows).

(2) Values are calculated based on the simple average of the daily LCR over 62 business days in the first quarter of 2025.

(3) Weighted values are calculated after the application of the weights prescribed under OSFI's LAR Guideline for HQLA and cash inflows and outflows.

(4) Adjusted values are calculated based on total weighted values after applicable caps, as defined by the LAR Guideline.

Net Stable Funding Ratio

The Net Stable Funding Ratio (NSFR) is a regulatory liquidity metric that assesses the stability of a bank's funding profile in relation to the liquidity value of its assets and is calculated in accordance with OSFI's LAR Guideline. Unlike the LCR, which is a short-term metric, the NSFR assesses a bank's medium-term and long-term resilience. The NSFR is defined as the ratio of the amount of available stable funding (ASF) to the amount of required stable funding (RSF). ASF represents the proportion of own and third-party resources that are expected to be reliably available over a one-year horizon (including customer deposits, long-term wholesale funding, and capital). The stable funding requirements for each institution are set by OSFI based on the liquidity and maturity characteristics of its on-balance sheet assets and off-balance sheet exposures. Weightings prescribed by OSFI are applied to notional asset and liability balances to determine ASF and RSF and the NSFR. Canadian domestic systemically important banks (D-SIBs), including BMO, are required to maintain a minimum NSFR of 100%. BMO's NSFR was 116% as at January 31, 2025, equivalent to a surplus of \$111.6 billion above the regulatory minimum. The NSFR decreased from 117% in the prior quarter, as higher available stable funding was more than offset by an increase in required stable funding.

* Disclosure is not required under the NSFR disclosure standard.

(1) Items in the no maturity column do not have a stated maturity. These may include, but are not limited to, non-maturity deposits, short positions, open maturity positions, non-HQLA equities, physical traded commodities and demand loans.

(2) Weighted values are calculated after the application of the weights prescribed under the OSFI LAR Guideline for ASF and RSF.

Contractual Maturities of Assets and Liabilities and Off-Balance Sheet Commitments

The tables below show the remaining contractual maturities of on-balance sheet assets and liabilities and off-balance sheet commitments. The contractual maturity of financial assets and liabilities is an input to, but is not necessarily consistent with, the expected maturity of assets and liabilities that is used in the management of liquidity and funding risk. We forecast asset and liability cash flows, under both normal market conditions and a number of stress scenarios, to manage liquidity and funding risk. Stress scenarios incorporate assumptions for loan repayments, deposit withdrawals, and credit commitment and liquidity facility drawdowns by counterparty and product type. Stress scenarios also consider the time horizon over which liquid assets can be monetized and the related discounts (“haircuts”) and potential collateral requirements that may arise from both market volatility and credit rating downgrades, among other assumptions.

Total liabilities and equity	245,748	98,520	96,950	58,899	66,752	73,809	104,876	79,598	642,941	1,468,093

(1) Loans receivable on demand have been included under no maturity.

(2) Deposits payable on demand and payable after notice have been included under no maturity.

(3) Deposits totalling \$29,063 million as at January 31, 2025, have a fixed maturity date; however, they can be redeemed early (either fully or partially) by customers without penalty. These are classified as payable on a fixed date due to their stated contractual maturity date.

(4) These are presented based on their earliest maturity date.

TABLE 40

	January 31, 2025									
(Canadian \$ in millions)	0 to 1 month	1 to 3 months	3 to 6 months	6 to 9 months	9 to 12 months	1 to 2 years	2 to 5 years	Over 5 years	No maturity	Total
Off-Balance Sheet Commitments										
Commitments to extend credit (1)	1,900	6,905	17,069	13,373	13,033	51,646	134,511	7,315	–	245,752
Letters of credit (2)	2,746	4,431	7,255	5,267	6,917	2,157	4,041	35	–	32,849
Backstop liquidity facilities	–	308	2,158	1,539	881	10,883	1,645	849	–	18,263
Other commitments (3)	99	80	127	129	228	537	830	452	–	2,482

(1) Commitments to extend credit exclude personal lines of credit and credit cards that are unconditionally cancellable at BMO's discretion. A large majority of these commitments expire without being drawn upon. As a result, the total contractual amounts may not be representative of the funding likely to be required for these commitments.

(2) Letters of credit can be drawn down at any time. These are classified based on their stated contractual maturity.

(3) Other commitments comprise purchase obligations and lease commitments for leases signed but not yet commenced.

TABLE 41

Other commitments (3)	30	78	94	87	187	399	486	98	–	1,459

(1) Commitments to extend credit exclude personal lines of credit and credit cards that are unconditionally cancellable at BMO's discretion. A large majority of these commitments expire without being drawn upon. As a result, the total contractual amounts may not be representative of the funding likely to be required for these commitments.

(2) Letters of credit can be drawn down at any time. These are classified based on their stated contractual maturity.

(3) Other commitments comprise purchase obligations and lease commitments for leases signed but not yet commenced.

Caution

This Liquidity and Funding Risk section contains forward-looking statements. Please refer to the Caution Regarding Forward-Looking Statements.

Glossary of Financial Terms

Adjusted Earnings and Measures are non-GAAP and exclude certain specified items from revenue, non-interest expense, provision for credit losses and income taxes that may not be reflective of ongoing business performance. Management considers both reported and adjusted results to be useful in assessing underlying ongoing performance, as set out in the Non-GAAP and Other Financial Measures section.

Allowance for Credit Losses represents an amount deemed appropriate by management to absorb credit-related losses on loans and acceptances and other credit instruments, in accordance with applicable accounting standards. Allowance on Performing Loans is maintained to cover impairment in the existing portfolio for loans that have not yet been individually identified as impaired. Allowance on Impaired Loans is maintained to reduce the carrying value of individually identified impaired loans to the expected recoverable amount.

Allowance for Credit Losses on Impaired Loans Ratio is calculated as the allowance for credit losses on impaired loans as a percentage of gross impaired loans and acceptances.

Assets under Administration and Assets under Management refers to assets administered or managed by a financial institution that are beneficially owned by clients and therefore not reported on the balance sheet of the administering or managing financial institution.

Asset-Backed Commercial Paper (ABCP) is backed by assets such as trade receivables, and is generally used for short-term financing needs.

Average Earning Assets represents the daily average balance of deposits at central banks, deposits with other banks, securities borrowed or purchased under resale agreements, securities, and loans over the period.

Bankers' Acceptances (BAs) are bills of exchange or negotiable instruments drawn by a borrower for payment at maturity and accepted by a bank. BAs constitute a guarantee of payment by the issuer's bank for a fee and can be traded in the money market.

Basis Point is one one-hundredth of a percentage point.

Book Value per Share represents common shareholders' equity divided by the number of common shares at the end of a period.

Collateral is assets pledged as security to secure loans or other obligations.

Collateralized Mortgage Obligations (CMOs) are debt securities with multiple tranches, issued by structured entities and collateralized by a pool of mortgages. Each tranche offers different terms, interest rates, and risks.

Common Equity Tier 1 (CET1) Capital comprises common shareholders' equity, including applicable contractual service margin, net of deductions for goodwill, intangible assets, pension assets, certain deferred tax assets and other items, which may include a portion of expected credit loss provisions or a shortfall in allowances or other specified items.

Common Equity Tier 1 (CET1) Ratio is calculated as CET1 Capital divided by risk-weighted assets. The CET1 Ratio is calculated in accordance with OSFI's Capital Adequacy Requirements (CAR) Guideline.

Common Shareholders' Equity is the most permanent form of capital. For regulatory capital purposes, common shareholders' equity comprises common shareholders' equity, net of capital deductions.

Contractual Service Margin (CSM) represents the unearned profit of a group of insurance contracts that we expect to recognize in the income statement as services provided.

Credit Valuation Adjustment (CVA) represents fair value adjustments to capture counterparty credit risk in our derivative valuations.

Derivatives are contracts, requiring no or little initial investment, with a value that is derived from movements in underlying interest or foreign exchange rates, equity or commodity prices or other indices. Derivatives are used to transfer, modify or reduce current or expected risks from changes in rates and prices.

Dividend Payout Ratio represents common share dividends as a percentage of net income available to common shareholders. It is calculated by dividing dividends per share by basic earnings per share.

Dividend Yield is calculated as dividends per common share divided by the closing share price.

Earnings per Share (EPS) is calculated by dividing net income available to common shareholders, after deducting preferred share dividends and distributions on other equity instruments, by the average number of common shares outstanding. Diluted EPS, which is BMO's basis for measuring performance, adjusts for possible conversions of financial instruments into common shares if those conversions would reduce EPS.

Earnings Sensitivity is a measure of the impact of potential changes in interest rates on the projected 12-month pre-tax net income from a portfolio of assets, liabilities and off-balance sheet positions in response to prescribed parallel interest rate movements, with interest rates floored at zero.

Economic Capital is an expression of the enterprise's capital demand requirement relative to its view of the economic risks in its underlying business activities. It represents management's estimation of the likely magnitude of economic losses that could occur should severely adverse situations arise. Economic capital is calculated for various types of risk, including credit, market (trading and non-trading), operational non-financial, business and insurance, based on a one-year time horizon using a defined confidence level.

Economic Value Sensitivity is a measure of the impact of potential changes in interest rates on the market value of a portfolio of assets, liabilities and off-balance sheet positions in response to prescribed parallel interest rate movements, with interest rates floored at zero.

Effective Tax Rate is a percentage calculated as provision for income taxes divided by income before provision for income taxes.

Efficiency Ratio (or Expense-to-Revenue Ratio) is a measure of productivity. It is a percentage calculated as non-interest expense divided by total revenue (on a taxable equivalent basis in the operating groups).

Fair Value is the amount of consideration that would be agreed upon in an arm's-length transaction between knowledgeable, willing parties who are under no compulsion to act in an orderly market transaction.

Forwards and Futures are contractual agreements to either buy or sell a specified amount of a currency, commodity, interest-rate-sensitive financial instrument or security at a specified price and date in the future. Forwards are customized contracts transacted in the over-the-counter market. Futures are transacted in standardized amounts on regulated exchanges and are subject to daily cash margin requirements.

Gross Impaired Loans and Acceptances (GIL) is calculated as the credit impaired balance of loans and customers' liability under acceptances.

Gross Impaired Loans and Acceptances (GIL) Ratio is calculated as gross impaired loans and acceptances as a percentage of gross loans and acceptances.

Guarantees and Standby Letters of Credit represent our obligation to make payments to third parties on behalf of a customer if the customer is unable to make the required payments or meet other contractual requirements.

Hedging is a risk management technique used to neutralize, manage or offset interest rate, foreign currency, equity, commodity or credit risk exposures arising from normal banking activities.

High-Quality Liquid Assets (HQLA) are cash or assets that can be converted into cash with little or no loss in value to meet short-term liquidity needs.

Impaired Loans are loans for which there is no longer a reasonable assurance of the timely collection of principal or interest.

Insurance Investment Results represent net returns on insurance-related assets and the impact of the change in discount rates and financial assumptions on insurance contract liabilities.

Insurance Service Results represent insurance revenue, insurance service expenses and reinsurance results.

Leverage Exposures (LE) consist of on-balance sheet items and specified off-balance sheet items, net of specified adjustments.

Leverage Ratio is a Basel III regulatory measure calculated as Tier 1 Capital divided by LE, in accordance with OSFI's Capital Adequacy Requirements (CAR) Guideline.

Liquidity and Funding Risk is the potential risk that we are unable to meet our financial commitments in a timely manner at reasonable prices as they come due. Financial commitments include liabilities to depositors and suppliers, as well as lending, investment and pledging commitments.

Liquidity Coverage Ratio (LCR) is a Basel III regulatory metric calculated as the ratio of high-quality liquid assets to total net stressed cash outflows over a thirty-day period under a stress scenario, in accordance with guidelines issued by OSFI.

Market Risk is the potential for adverse changes in the value of our assets and liabilities resulting from changes in market variables such as interest rates, foreign exchange rates, credit spreads, equity and commodity prices and their implied volatilities.

Mark-to-Market represents the valuation of financial instruments at fair value as of the balance sheet date.

Master Netting Agreements are agreements between two parties designed to reduce the credit risk of multiple derivative transactions through the provision of a legal right to offset exposure in the event of default.

Net Interest Income comprises earnings on assets, such as loans and securities, including interest and certain dividend income, less interest expense paid on liabilities, such as deposits. Net interest income, excluding trading, is presented on a basis that excludes trading-related interest income.

Net Interest Margin is the ratio of net interest income to average earning assets, expressed as a percentage or in basis points. Net interest margin, excluding trading net interest income, and trading and insurance average assets is calculated in the same manner, excluding trading-related interest income, and trading and insurance earning assets.

Net Stable Funding Ratio (NSFR) is a regulatory liquidity measure that assesses the stability of a bank's funding profile in relation to the liquidity value of its assets, and is calculated in accordance with OSFI's Liquidity Adequacy Requirements (CAR) Guideline.

Notional Amount refers to the principal amount used to calculate interest and other payments under derivative contracts. The principal amount does not change hands under the terms of a derivative contract, except in the case of cross-currency swaps.

Off-Balance Sheet Financial Instruments comprises a variety of financial arrangements offered to clients, which include credit derivatives, written put options, backstop liquidity facilities, standby letters of credit, performance guarantees, credit enhancements, commitments to extend credit, securities lending, documentary and commercial letters of credit, and other indemnifications.

Office of the Superintendent of Financial Institutions (OSFI) is the government agency responsible for regulating banks, insurance companies, trust companies, loan companies and pension plans in Canada.

Operating Leverage is the difference between the growth rates of revenue and non-interest expense.

Options are contractual agreements that convey to the purchaser the right but not the obligation to either buy or sell a specified amount of a currency, commodity, interest-rate-sensitive financial instrument or security at a fixed future date or at any time within a fixed future period.

Pre-Provision, Pre-Tax Earnings (PPPT) is calculated as income before the provision for income taxes and provision for (recovery of) credit losses. We use PPPT on both a reported and an adjusted basis to assess our ability to generate sustained earnings growth excluding credit losses, which are impacted by the cyclical nature of a credit cycle.

Provision for Credit Losses (PCL) is a charge to income that represents an amount deemed adequate by management to provide for impairment in a portfolio of loans and acceptances and other credit instruments, given the composition of the portfolio, the probability of default, the economic outlook and the allowance for credit losses already established. PCL can comprise both a provision for credit losses on impaired loans and a provision for credit losses on performing loans.

Provision for Credit Losses (PCL) Ratio is calculated as the annualized total provision for credit losses as a percentage of average net loans and acceptances.

Return on Equity or Return on Common Shareholders' Equity (ROE) is calculated as net income, less preferred dividends and distributions on other equity instruments, as a percentage of average common shareholders' equity. Common shareholders' equity comprises common share capital, contributed surplus, accumulated other comprehensive income (loss) and retained earnings.

Return on Tangible Common Equity (ROTCE) is calculated as net income available to common shareholders, adjusted for the amortization of acquisition-related intangible assets and any impairments, as a percentage of average tangible common equity.

Risk-Weighted Assets (RWA) are on- and off-balance sheet exposures adjusted by a regulatory risk-weighted factor to a comparable risk level, in accordance with guidelines issued by OSFI.

Securities Borrowed or Purchased under Resale Agreements are low-cost, low-risk instruments, often supported by the pledge of cash collateral, which arise from transactions that involve the borrowing or purchasing of securities.

Securities Lent or Sold under Repurchase Agreements are low-cost, low-risk liabilities, often supported by cash collateral, which arise from transactions that involve the lending or selling of securities.

Securitization is the practice of selling pools of contractual debts, such as residential mortgages, auto loans and credit card debt obligations, to third parties or trusts, which then typically issue a series of asset-backed securities to investors to fund the purchase of the contractual debts.

Structured Entities (SEs) include entities for which voting or similar rights are not the dominant factor in determining control of the entity. BMO is required to consolidate a SE if it controls the entity by having power over the entity, exposure to variable returns as a result of its involvement and the ability to exercise power to affect the amount of those returns.

Structural (Non-Trading) Market Risk comprises interest rate risk arising from banking activities (loans and deposits) and foreign exchange risk arising from foreign currency operations and exposures.

Swaps are contractual agreements between two parties to exchange a series of cash flows based on notional amounts over a specified period.

Tangible Common Equity is calculated as common shareholders' equity, less goodwill and acquisition-related intangible assets, net of related deferred tax liabilities.

Taxable Equivalent Basis (teb): Operating segment revenue is presented on a taxable equivalent basis (teb). Revenue and the provision for income taxes in BMO Capital Markets and U.S. P&C are increased on tax-exempt securities to an equivalent pre-tax basis to facilitate comparisons of income between taxable and tax-exempt sources. The offset to operating segment teb adjustments is reflected in Corporate Services revenue and provision for (recovery of) income taxes.

Tier 1 Capital comprises CET1 Capital and **Additional Tier 1 (AT1) Capital**. AT1 Capital consists of preferred shares, limited recourse capital notes and other qualifying capital instruments issued by a subsidiary to third parties.

Tier 2 Capital comprises subordinated debentures and may include certain credit loss provisions, less regulatory deductions.

Total Capital comprises Tier 1 and Tier 2 Capital.

Total Loss Absorbing Capacity (TLAC) comprises Total Capital and senior unsecured debt subject to the Canadian Bail-In Regime, less regulatory deductions, in accordance with guidelines issued by OSFI.

Total Loss Absorbing Capacity (TLAC) Ratio is calculated as TLAC divided by risk-weighted assets.

Total Loss Absorbing Capacity (TLAC) Leverage Ratio is calculated as TLAC divided by leverage exposures.

Total Shareholder Return: The annual total shareholder return (TSR) represents the average annual total return earned on an investment in BMO common shares made at the beginning of the respective period. The return includes the change in share price and assumes dividends received were reinvested in additional common shares.

Trading-Related Revenue comprises net interest income and non-interest revenue earned from on-balance sheet and off-balance sheet positions undertaken for trading purposes. The management of these positions typically includes marking them to market on a daily basis.

Value-at-Risk (VaR) measures the maximum loss likely to be experienced in the trading and underwriting portfolios, measured at a 99% confidence level over a one-day holding period. VaR is calculated for specific classes of risk in BMO's trading and underwriting activities related to interest rates, foreign exchange rates, credit spreads, equity and commodity prices and their implied volatilities.

Consolidated Statement of Income

(Unaudited) (Canadian \$ in millions, except as noted)

	For the three months ended

Net cash provided by operating activities includes:		
Interest paid in the period (1)	\$ 11,677	\$ 10,673
Income taxes paid in the period	480	419
Interest received in the period	16,113	15,325
Dividends received in the period	726	549

(1) Includes dividends paid on securities sold but not yet purchased.

The accompanying notes are an integral part of these interim consolidated financial statements.

Notes to Interim Consolidated Financial Statements

January 31, 2025 (Unaudited)

Note 1: Basis of Presentation

Bank of Montreal (the bank or BMO) is a chartered bank under the *Bank Act (Canada)* and is a public company incorporated in Canada. We are a highly diversified financial services company, providing a broad range of personal and commercial banking, wealth management and investment banking products and services. The bank's head office is at 129 rue Saint Jacques, Montreal, Quebec. Our executive offices are at 100 King Street West, 1 First Canadian Place, Toronto, Ontario. Our common shares are listed on the Toronto Stock Exchange (TSX) and the New York Stock Exchange.

These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard (IAS) 34, *Interim Financial Reporting* as issued by the International Accounting Standards Board (IASB) using the same accounting policies as disclosed in our annual consolidated financial statements for the year ended October 31, 2024, except as outlined below. These condensed interim consolidated financial statements should be read in conjunction with the notes to our annual consolidated financial statements for the year ended October 31, 2024. We also comply with interpretations of International Financial Reporting Standards (IFRS) by our regulator, the Office of the Superintendent of Financial Institutions (OSFI). These interim consolidated financial statements were authorized for issue by the Board of Directors on February 25, 2025.

Use of Estimates and Judgments

The preparation of the interim consolidated financial statements requires management to make estimates and judgments that affect the carrying amounts of certain assets and liabilities, certain amounts reported in net income and other related disclosures.

The most significant assets and liabilities for which we must make estimates and judgments include the allowance for credit losses (ACL); financial instruments measured at fair value; pension and other employee future benefits; impairment of securities and investments in associates and joint ventures; income taxes and deferred tax assets; goodwill and intangible assets; insurance contract liabilities; provisions including legal proceedings and severance charges; transfers of financial assets and consolidation of structured entities. We make judgments in assessing the business model for financial assets as well as whether substantially all risks and rewards have been transferred in respect of transfers of financial assets and whether we control structured entities. If actual results were to differ from the estimates, the impact would be recorded in future periods.

The economic outlook is subject to several risks that could lead to a less favourable outcome for the North American economy. The most immediate threat is from potential new tariffs imposed by the U.S. Federal Government on U.S. imports and retaliatory actions by trading partners. The Canadian economy and businesses face additional long-term risks in the event of an unsuccessful renegotiation of the Canada-United States-Mexico Trade Agreement by 2026. The wildfires in Los Angeles will temporarily slow growth in California before extensive rebuilding in the years ahead. Other risks include the continued conflict in Ukraine, possible renewed conflict in the Middle East, heightened tensions between the United States and China over trade relations and Taiwan, and ongoing diplomatic tensions between Canada and India. The impact on our business, results of operations, reputation, financial performance and condition, including the potential for credit, counterparty and mark-to-market losses, our credit ratings and regulatory capital and liquidity ratios, as well as the impacts to our customers and competitors, will depend on future developments, which remain uncertain. By their very nature, the estimates and judgments we make for the purposes of preparing our consolidated financial statements relate to matters that are inherently uncertain. However, we have detailed policies and internal controls in place that are intended to ensure the judgments made in estimating these amounts are well controlled and independently reviewed, and that our policies are consistently applied from period to period. We believe that our estimates of the value of our assets and liabilities are appropriate as at January 31, 2025.

Allowance for Credit Losses

As detailed further in Note 1 of our annual consolidated financial statements for the year ended October 31, 2024, ACL consists of allowances on impaired loans, which represent estimated losses related to impaired loans in the portfolio provided for but not yet written off, and allowances on performing loans, which is our best estimate of impairment in the existing portfolio for loans that have not yet been individually identified as impaired.

The expected credit losses (ECL) model requires the recognition of credit losses generally based on 12 months of expected losses for performing loans and the recognition of lifetime losses on performing loans that have experienced a significant increase in credit risk since origination.

The determination of a significant increase in credit risk takes into account many different factors and varies by product and risk segment. The bank's methodology for determining a significant increase in credit risk is based on the change in probability of default between origination, and reporting date, assessed using probability-weighted scenarios as well as certain other criteria, such as 30 days past due and watchlist status. The assessment of a significant increase in credit risk requires experienced credit judgment.

In determining whether there has been a significant increase in credit risk and in calculating the amount of ECL, we must rely on estimates and exercise judgment, based on what we know at the end of the reporting period, regarding matters for which the ultimate outcome is unknown. These judgments include changes in circumstances that may cause future assessments of credit risk to be materially different from current assessments, which could require an increase or a decrease in the ACL. The calculation of ECL includes the explicit incorporation of forecasts of future economic conditions. We have developed models incorporating specific macroeconomic variables that are relevant to each portfolio. Key economic variables for our retail portfolios include our primary operating markets of Canada, the United States and regional markets, where considered significant. Forecasts are developed internally by our Economics group, considering external data and our view of future economic conditions. We exercise experienced credit judgment to incorporate multiple economic forecasts, which are probability-weighted, in the determination of the final ECL. The allowance is sensitive to changes in both economic forecasts and the probability weight assigned to each forecast scenario.

Additional information regarding the ACL is included in Note 3.

Note 2: Securities

Classification of Securities

The following table summarizes the carrying amounts of the bank's securities by classification:

(Canadian \$ in millions)	January 31, 2025	October 31, 2024
Trading securities (1)	\$ 183,264	\$ 168,926
Fair value through profit or loss securities (FVTPL)		
FVTPL securities mandatorily measured at fair value	7,232	6,850
FVTPL investment securities held by Insurance subsidiaries designated at fair value	12,871	12,214
Total FVTPL securities	20,103	19,064
Fair value through other comprehensive income (FVOCI) securities (2)	100,257	93,702
Amortized cost securities (3)	107,444	115,188
Total	\$ 411,068	\$ 396,880

(1) Trading securities include interests of \$28,120 million as at January 31, 2025 (\$21,485 million as at October 31, 2024) in Collateralized Mortgage Obligations (CMO). We receive CMO in return for our sales of Mortgage Backed Securities (MBS) to certain structured vehicles that we do not consolidate. When we subsequently sell these CMO to third parties, but do not transfer substantially all risks and rewards of ownership to the third-party investor, or we maintain an interest in the sold instrument, we retain these CMO on our Consolidated Balance Sheet. Refer to Note 7 of our annual consolidated financial statements for the year ended October 31, 2024 for further discussion on these vehicles.

(2) Amounts are net of ACL of \$4 million (\$4 million as at October 31, 2024).

(3) Amounts are net of ACL of \$3 million (\$3 million as at October 31, 2024).

Amortized Cost Securities

The following table summarizes the carrying value and fair value of amortized cost debt securities:

(Canadian \$ in millions)	January 31, 2025		October 31, 2024	
	Carrying value	Fair value	Carrying value	Fair value
Issued or guaranteed by:				
Canadian federal government	\$ 1,955	\$ 1,938	\$ 2,465	\$ 2,403
Canadian provincial and municipal governments	4,269	4,270	4,488	4,216
U.S. federal government	48,089	44,234	55,421	51,319
U.S. states, municipalities and agencies	190	188	182	180
Other governments	709	705	681	675
NHA MBS, U.S. agency MBS and CMO (1)	43,237	38,691	42,773	38,619
Corporate debt	8,995	8,852	9,178	9,049
Total	\$ 107,444	\$ 98,878	\$ 115,188	\$ 106,461

(1) These amounts are either supported by insured mortgages or issued by U.S. agencies and government-sponsored enterprises. NHA refers to the National Housing Act.

The carrying value of securities that are part of fair value hedging relationships are adjusted for related gains (losses) on hedge contracts.

Unrealized Gains and Losses on FVOCI Securities

The following table summarizes the unrealized gains and losses on FVOCI securities:

(Canadian \$ in millions)	January 31, 2025				October 31, 2024			
	Cost or amortized cost	Gross unrealized gains	Gross unrealized losses	Fair value	Cost or amortized cost	Gross unrealized gains	Gross unrealized losses	Fair value
Issued or guaranteed by:								
Canadian federal government	\$ 37,302	\$ 541	\$ (11)	\$ 37,832	\$ 33,892	\$ 303	\$ (18)	\$ 34,177
Canadian provincial and municipal governments	5,964	122	(25)	6,061	5,939	82	(25)	5,996
U.S. federal government	17,163	43	(233)	16,973	17,033	100	(168)	16,965
U.S. states, municipalities and agencies	5,019	12	(85)	4,946	5,125	24	(81)	5,068
Other governments	6,232	22	(8)	6,246	5,643	20	(7)	5,656
NHA MBS, U.S. agency MBS and CMO	24,100	59	(416)	23,743	21,570	58	(335)	21,293
Corporate debt	4,283	31	(21)	4,293	4,391	31	(52)	4,370
Corporate equity	136	27	-	163	135	42	-	177
Total	\$ 100,199	\$ 857	\$ (799)	\$ 100,257	\$ 93,728	\$ 660	\$ (686)	\$ 93,702

Unrealized gains (losses) may be offset by related (losses) gains on hedge contracts.

Interest Income on Debt Securities

The following table presents interest income calculated using the effective interest method:

(Canadian \$ in millions)	For the three months ended	
	January 31, 2025	January 31, 2024
FVOCI securities	\$ 1,097	\$ 947
Amortized cost securities	805	954
Total	\$ 1,902	\$ 1,901

Non-Interest Revenue

Net gains and losses from securities, excluding gains and losses on trading securities, have been included in our Consolidated Statement of Income as follows:

(Canadian \$ in millions)	For the three months ended	
	January 31, 2025	January 31, 2024
FVTPL securities	\$ 49	\$ 7
FVOCI securities - net realized gains (1)	9	8
Impairment on FVOCI and amortized cost securities	-	(2)
Securities gains, other than trading	\$ 58	\$ 13

(1) Gains are net of (losses) on hedge contracts.

Interest and dividend income and gains on securities held in our Insurance business are recorded as a component of non-interest revenue, insurance investment results, in our Consolidated Statement of Income as follows:

(Canadian \$ in millions)	For the three months ended	
	January 31, 2025	January 31, 2024
Interest and dividend income	\$ 136	\$ 127
Gains from securities designated at FVTPL (1)	281	907
Realized gains from FVOCI securities	-	-
Total interest and dividend income and gains held in our Insurance business	\$ 417	\$ 1,034

(1) Gains on these securities may be offset by certain (losses) from changes in insurance-related liabilities.

Note 3: Loans and Allowance for Credit Losses

Allowance for Credit Losses

The ACL recorded in our Consolidated Balance Sheet is maintained at a level we consider adequate to absorb credit-related losses on our loans and other credit instruments. The ACL amounted to \$5,438 million as at January 31, 2025 (\$4,936 million as at October 31, 2024) of which \$4,792 million (\$4,356 million as at October 31, 2024) was recorded in loans and \$646 million (\$580 million as at October 31, 2024) was recorded in other liabilities in our Consolidated Balance Sheet.

Changes in gross balances, including originations, maturities, sales, write-offs and repayments in the normal course of operations, impact the ACL.

The following tables show the continuity in the loss allowance by product type for the three months ended January 31, 2025 and January 31, 2024. Transfers represent the amount of ECL that moved between stages during the period, for example, moving from a 12-month (Stage 1) to lifetime (Stage 2) ECL measurement basis. Net remeasurements represent the ECL impact due to transfers between stages, as well as changes in economic forecasts and credit quality. Model changes include new calculation models or methodologies.

(Canadian \$ in millions)

(1) Includes changes in the allowance for purchased credit impaired (PCI) loans.

(2) Excludes PCL on other assets of \$(7) million for the three months ended January 31, 2025 (\$7 million for the three months ended January 31, 2024).

(3) Generally, we continue to seek recovery on amounts that were written off during the year, unless the loan is sold, we no longer have the right to collect or we have exhausted all reasonable efforts to collect.

(4) Other credit instruments, including off-balance sheet items, are recorded in other liabilities in our Consolidated Balance Sheet.

Credit Risk Exposure

The following table sets out our credit risk exposure for all loans carried at amortized cost, FVOCI or FVTPL as at January 31, 2025 and October 31, 2024. Stage 1 represents performing loans carried with up to a 12-month ECL, Stage 2 represents performing loans carried with a lifetime ECL, and Stage 3 represents loans with a lifetime ECL that are credit impaired.

(1) Includes \$66 million (\$163 million as at October 31, 2024) of residential mortgages and \$13,116 million (\$12,431 million as at October 31, 2024) of business and government loans that are classified and measured at FVTPL and not subject to ECL.

(2) Includes PCI loans.

(3) Includes purchased portfolios and certain cases where an internal risk rating is not assigned. Alternative credit risk assessments, rating methodologies, policies and tools are used to manage credit risk for these portfolios.

(4) Credit card loans are immediately written off when principal or interest payments are 180 days past due, and as a result are not reported as impaired in Stage 3.

(5) Includes customers' liability under acceptances.

(6) Represents the total contractual amounts of undrawn credit facilities and other off-balance sheet exposures, excluding personal lines of credit and credit cards that are unconditionally cancellable at our discretion.

(7) Certain commercial borrower commitments are conditional and may include recourse to counterparties.

Loans Past Due Not Impaired

Loans that are past due but not classified as impaired are loans where our customers have failed to make payments when contractually due but for which we expect the full amount of principal and interest payments to be collected, or loans which are held at fair value. The following table presents loans that are past due but not classified as impaired as at January 31, 2025 and October 31, 2024. Loans less than 30 days past due are excluded as they are not generally representative of the borrower's ability to meet their payment obligations.

(Canadian \$ in millions)	January 31, 2025				October 31, 2024			
	30 to 89 days	90 days or more (1)	Total		30 to 89 days	90 days or more (1)	Total	
Residential mortgages	\$ 797	\$ 10	\$ 807		\$ 696	\$ 15	\$ 711	
Credit cards, consumer instalment and other personal	787	189	976		734	173	907	
Business and government	679	19	698		689	16	705	
Total	\$ 2,263	\$ 218	\$ 2,481		\$ 2,119	\$ 204	\$ 2,323	

(1) Fully secured loans with amounts between 90 and 180 days past due that we have not classified as impaired totalled \$10 million as at January 31, 2025 (\$16 million as at October 31, 2024).

ECL Sensitivity and Key Economic Variables

The ECL model requires the recognition of credit losses generally based on 12 months of expected losses for performing loans and the recognition of lifetime losses on performing loans that have experienced a significant increase in credit risk since origination.

The allowance for performing loans is sensitive to changes in both economic forecasts and the probability-weight assigned to each forecast scenario. Many of the factors have a high degree of interdependency, although there is no single factor to which loan loss allowances as a whole are sensitive.

The upside scenario as at January 31, 2025 assumes a stronger economic environment than the base case forecast, with lower unemployment rates.

As at January 31, 2025, our base case scenario depicts an economic environment with modestly higher unemployment rates in the near-term, largely in response to previously elevated interest rates and tighter lending conditions, and a moderate economic recovery over the medium-term as inflation is expected to ease further and lead to lower interest rates. Our base case forecast as at October 31, 2024 broadly depicted a weak economic environment in the near term, while improving over the medium term.

If we assumed a 100% weight on the base case forecast and included the impact of loan migration by restaging, with other assumptions held constant, including the application of experienced credit judgment, the allowance on performing loans would be approximately \$2,675 million as at January 31, 2025 (\$2,625 million as at October 31, 2024), compared to the reported allowance for performing loans of \$4,480 million (\$4,205 million as at October 31, 2024).

As at January 31, 2025, our downside scenario involves a sharp contraction in the Canadian and U.S. economies in the near-term, followed by a relatively slow recovery. Our severe downside scenario depicts an even deeper contraction in the Canadian and U.S. economies than in the downside scenario. The severe downside scenario as at October 31, 2024 broadly depicted a similar economic environment over the projection period. If we assumed a 100% severe downside economic forecast and included the impact of loan migration by restaging, with other assumptions held constant, including the application of experienced credit judgment, the allowance on performing loans would be approximately \$8,225 million as at January 31, 2025 (\$7,500 million as at October 31, 2024), compared to the reported allowance for performing loans of \$4,480 million (\$4,205 million as at October 31, 2024).

Actual results in a recession will differ as our portfolio will change through time due to migration, growth, changes in geopolitical risks, risk mitigation actions and other factors. In addition, our allowance will reflect the four economic scenarios used in assessing the allowance, with often unequal weightings attached to each scenario, which can change through time.

The following tables show the key economic variables used to estimate the allowance for performing loans forecast over the next 12 months or lifetime measurement period. The variables as at January 31, 2025 do not include the impact of tariffs on the economic outlook, but they do incorporate uncertainty with respect to their potential introduction. While the values disclosed below are national variables, we use regional variables in the underlying models and consider factors impacting particular industries where appropriate.

(1) The remaining forecast period is two years.

(2) Real gross domestic product (GDP) and housing price index are averages of quarterly year-over-year growth rates.

(3) In Canada, we use the Housing Price Index Benchmark Composite.

(4) In the United States, we use the National Case-Shiller House Price Index.

The ECL approach requires the recognition of credit losses generally based on 12 months of expected losses for performing loans (Stage 1) and the recognition of lifetime expected losses for performing loans that have experienced a significant increase in credit risk since origination (Stage 2). Under our current probability-weighted scenarios, if all of our performing loans were in Stage 1, our models would generate an allowance for performing loans of approximately \$3,225 million (\$3,050 million as at October 31, 2024), compared to the reported allowance for performing loans of \$4,480 million (\$4,205 million as at October 31, 2024).

As at October 31, 2024	285,555	77,313	48,086	410,954

The following table presents the maturity schedule for deposits payable on a fixed date greater than one hundred thousand dollars, which are booked in Canada:

(Canadian \$ in millions)	Less than 3 months	3 to 6 months	6 to 12 months	Over 12 months	Total
As at January 31, 2025	\$ 52,532	\$ 46,585	\$ 48,980	\$ 129,149	\$ 277,246
As at October 31, 2024	63,442	33,704	62,674	125,735	285,555

Note 5: Insurance

Insurance Results

Insurance service results in our Consolidated Statement of Income are as follows:

(Canadian \$ in millions)	For the three months ended	
	January 31, 2025	January 31, 2024
Insurance revenue	\$ 470	\$ 433
Insurance service expenses	(351)	(297)
Net expenses from reinsurance contracts	(28)	(37)
Insurance service results	\$ 91	\$ 99

Insurance investment results in our Consolidated Statement of Income are as follows:

(Canadian \$ in millions)	For the three months ended	
	January 31, 2025	January 31, 2024
Investment return	\$ 559	\$ 1,283
Insurance finance (expense) from insurance and reinsurance contracts held	(473)	(1,225)
Movement in investment contract liabilities	(26)	(67)
Insurance investment results	\$ 60	\$ (9)

Insurance Contract Liabilities

Insurance contract liabilities by remaining coverage and incurred claims comprise the following:

(Canadian \$ in millions)	For the three months ended January 31, 2025			For the three months ended January 31, 2024		
	Liabilities for remaining coverage	Liabilities for incurred claims	Total	Liabilities for remaining coverage	Liabilities for incurred claims	Total
Insurance contract liabilities, beginning of period	\$ 17,047	\$ 201	\$ 17,248	\$ 13,114	\$ 235	\$ 13,349
Insurance service results	(423)	321	(102)	(385)	263	(122)
Net finance expenses from insurance contracts	531	–	531	1,267	–	1,267
Total cash flows	658	(308)	350	1,037	(270)	767
Other changes in the net carrying amount of the insurance contract	1	4	5	(1)	(3)	(4)
Insurance contract liabilities, end of period (1)	\$ 17,814	\$ 218	\$ 18,032	\$ 15,032	\$ 225	\$ 15,257

(1) The liabilities for incurred claims relating to insurance contracts in our creditor and reinsurance business were \$116 million as at January 31, 2025 and \$126 million as at January 31, 2024.

Contractual service margin (CSM) from contracts issued was \$18 million for the three months ended January 31, 2025 (\$40 million for the three months ended January 31, 2024). Total CSM as at January 31, 2025 was \$1,567 million (\$1,550 million as at October 31, 2024). This excludes the impact of any reinsurance held, which is not significant to the bank. Onerous contract losses for the three months ended January 31, 2025 and January 31, 2024 were not material.

We use the following rates for discounting fulfilment cash flows for our insurance contract liabilities, which are based on a risk-free yield adjusted for an illiquidity premium that reflects the liquidity characteristics of the liabilities:

Portfolio duration:	January 31, 2025	October 31, 2024
1 year	3.58%	4.16%
3 years	3.78%	4.17%
5 years	4.04%	4.35%
10 years	4.63%	4.82%
20 years	5.04%	5.15%
30 years	4.89%	4.98%
Ultimate	5.00%	5.00%

(1) For additional information refer to Notes 17 and 21 of our annual consolidated financial statements for the year ended October 31, 2024.

(2) Represents year-to-date dividends declared per share as at reporting date. Non-cumulative dividends on preferred shares are payable quarterly as and when declared by the Board of Directors, except for Class B – Series 50 and 52 preferred share dividends, which are payable semi-annually.

(3) If converted, the holders have the option to convert back to the original preferred shares on subsequent redemption dates, subject to certain conditions.

(4) The instruments issued include a NVCC provision, which is necessary for the preferred shares, AT1 Notes and by virtue of the recourse to the Preferred Shares Series 48, Preferred Shares Series 49, Preferred Shares Series 51, Preferred Shares Series 53 and Preferred Shares Series 54 (collectively, the LRCN Preferred Shares) for Series 1, Series 2, Series 3, Series 4 and Series 5 LRCNs (collectively, the LRCNs), respectively, to qualify as regulatory capital under Basel III. As such, they are convertible into a variable number of our common shares if OSFI announces that the bank is, or is about to become, non-viable or if a federal or provincial government in Canada publicly announces that the bank has accepted or agreed to accept a capital injection, or equivalent support, to avoid non-viability. In such an event, each preferred share, including the LRCN Preferred Shares and AT1 Notes, is convertible into common shares pursuant to an automatic conversion formula and a conversion price based on the greater of: (i) a floor price of \$5.00 and (ii) the current market price of our common shares based on the volume weighted average trading price of our common shares on the TSX. The number of common shares issued is determined by dividing the value of the preferred share or other equity instrument, including declared and unpaid dividends, by the conversion price and then applying the multiplier.

(5) The notes had an initial interest rate of 4.800% and reset on August 25, 2024 to 6.709%.

(6) Non-deferrable interest is payable semi-annually on the Series 1, Series 2 and Series 3 LRCNs and quarterly on the Series 4 and Series 5 LRCNs at the bank's discretion. Non-payment of interest will result in a recourse event, with the noteholders' sole remedy being the holders' proportionate share of trust assets comprised of the LRCN Preferred Shares, each series of which is issued concurrently with the corresponding LRCNs and are eliminated on consolidation. In such an event, the delivery of the trust assets will represent the full and complete extinguishment of our obligations under the LRCNs. In circumstances where the LRCN Preferred Shares are converted into common shares of the bank under the NVCC provision, the LRCNs would be redeemed and the noteholders' sole remedy would be their proportionate share of trust assets, then comprised of common shares of the bank received by the trust on conversion.

(7) The rates represent the annual interest rate percentage applicable to the notes issued as at the reporting date.

(8) The stock options issued under the Stock Option Plan are convertible into 6,796,715 common shares as at January 31, 2025 (6,554,492 common shares as at October 31, 2024) of which 3,292,163 are exercisable as at January 31, 2025 (2,856,460 as at October 31, 2024).

(9) During the three months ended January 31, 2025, we issued nil common shares, under the Shareholder Dividend Reinvestment and Share Purchase Plan (4,057,988 common shares during the three months ended January 31, 2024) and we issued 474,410 common shares, under the Stock Option Plan (390,996 common shares during the three months ended January 31, 2024).

(10) Common shares are net of 95,889 treasury shares as at January 31, 2025 (55,172 treasury shares as at October 31, 2024).

Other Equity Instruments

The AT1 Notes and LRCNs are compound financial instruments that have both equity and liability features. On the date of issuance, we assigned an insignificant value to the liability components of both instruments and, as a result, the full amount of proceeds has been classified as equity and form part of our additional Tier 1 NVCC. Distributions on the AT1 Notes and LRCNs are recognized as a reduction in equity when payable. The AT1 Notes and LRCNs are subordinate to the claims of the depositors and certain other creditors in right of payment.

Preferred Shares

On November 25, 2024, we redeemed all of our outstanding 12 million Non-Cumulative 5-year Rate Reset Class B Preferred Shares, Series 31 (NVCC) for an aggregate total of \$300 million.

Common Shares

On January 17, 2025, we announced a normal course issuer bid (NCIB) to purchase up to 20 million of our common shares for cancellation commencing January 22, 2025, and ending no later than January 21, 2026. The timing and amount of purchases under the NCIB are determined by management, based on factors such as market conditions and capital levels. During the three months ended January 31, 2025, we purchased for cancellation 1.2 million common shares under the NCIB, at an average price of \$144.43 per share for a total amount of \$176 million, including tax.

Shareholder Dividend Reinvestment and Share Purchase Plan

Until further notice, common shares under the Shareholder Dividend Reinvestment and Share Purchase Plan will be purchased on the open market without a discount.

Non-Controlling Interest

Non-controlling interest in subsidiaries, relating to our acquisition of Bank of the West, was \$41 million as at January 31, 2025 (\$36 million as at October 31, 2024).

Note 7: Fair Value Measurements

Fair Value of Financial Instruments Not Carried at Fair Value on the Balance Sheet

Set out in the following table are the amounts that would be reported if all financial instruments not currently carried at fair value were reported at their fair values. Refer to Note 18 of our annual consolidated financial statements for the year ended October 31, 2024 for further discussion on the determination of fair value.

(Canadian \$ in millions)	January 31, 2025		October 31, 2024	
	Carrying value	Fair value	Carrying value	Fair value
Securities (1)				
Amortized cost	\$ 107,444	\$ 98,878	\$ 115,188	\$ 106,461
Loans (1) (2)				
Residential mortgages	193,963	191,754	190,666	188,848
Consumer instalment and other personal	92,212	92,037	91,889	91,513
Credit cards	12,942	12,942	13,030	13,030
Business and government	376,355	376,720	369,776	370,101
	675,472	673,453	665,361	663,492
Deposits (3)	940,186	940,831	928,332	928,689
Securitization and structured entities' liabilities (4)	21,697	21,667	21,850	21,653
Other liabilities (5)	3,098	2,842	2,929	2,669
Subordinated debt	8,554	8,752	8,377	8,543

This table excludes financial instruments with a carrying value approximating fair value, such as cash and cash equivalents, interest bearing deposits with banks, securities borrowed or purchased under resale agreements, certain other assets, certain other liabilities and securities lent or sold under repurchase agreements.

(1) Carrying value is net of ACL.

(2) Excludes \$66 million of residential mortgages classified as FVTPL, \$13,116 million of business and government loans classified as FVTPL and \$61 million of business and government loans classified as FVOCI (\$163 million, \$12,431 million and \$61 million, respectively, as at October 31, 2024).

(3) Excludes \$48,383 million of structured note liabilities, \$4,210 million of money market deposits, \$1,223 million of embedded options related to structured deposits carried at amortized cost and \$2,830 million of metals deposits measured at fair value (\$45,222 million, \$6,032 million, \$1,047 million and \$1,807 million, respectively, as at October 31, 2024).

(4) Excludes \$25,097 million of securitization and structured entities' liabilities classified as FVTPL (\$18,314 million as at October 31, 2024).

(5) Other liabilities include certain investment contract liabilities in our insurance business measured at amortized cost, as well as certain other liabilities of subsidiaries.

Fair Value Hierarchy

We use a fair value hierarchy to categorize assets and liabilities carried at fair value according to the inputs we use in valuation techniques to measure fair value.

Valuation Techniques and Significant Inputs

We determine the fair value of assets and liabilities using quoted prices in active markets (Level 1) when these are available. When quoted prices in active markets are not available, we determine the fair value of financial assets and liabilities using models such as discounted cash flows with observable market data for inputs, such as yields or broker quotes and other third-party vendor quotes (Level 2). Fair value may also be determined using models where significant market inputs are not observable due to inactive markets or minimal market activity (Level 3). We maximize the use of observable market inputs to the extent possible.

Our Level 2 trading securities are primarily valued using discounted cash flow models with observable spreads or broker quotes. The fair value of Level 2 FVOCI securities is determined using discounted cash flow models with observable spreads or third-party vendor quotes. Level 2 structured note liabilities are valued using models with observable market information. Level 2 derivative assets and liabilities are valued using industry standard models and observable market information.

The extent of our use of actively quoted market prices (Level 1), internal models using observable market information as inputs (Level 2) and models using one or more significant unobservable inputs (Level 3) in the valuation of securities, loans classified as FVTPL and FVOCI, other assets, fair value liabilities, derivative assets and derivative liabilities is presented in the following table:

(Canadian \$ in millions)		January 31, 2025				October 31, 2024

(1) Other assets include precious metals, segregated fund assets and investment properties in our insurance business, carbon credits, certain receivables and other items measured at fair value.

(2) Interest expense for liabilities carried at fair value is \$720 million for the three months ended January 31, 2025 (\$529 million for the three months ended January 31, 2024). Interest expense for liabilities carried at amortized cost is \$10,505 million for the three months ended January 31, 2025 (\$10,604 million for the three months ended January 31, 2024).

(3) Deposits include structured note liabilities, money market and metals deposits designated at FVTPL and certain embedded options related to structured deposits carried at amortized cost.

(4) Other liabilities include certain investment contract liabilities and segregated fund liabilities in our insurance business, as well as certain securitization and structured entities' liabilities measured at FVTPL.

Certain comparative figures have been reclassified to conform with the current period's presentation.

Quantitative Information about Level 3 Fair Value Measurements

The table below presents the fair values of our significant Level 3 financial instruments measured at fair value on a recurring basis, the valuation techniques used to determine their fair values and the value ranges of significant unobservable inputs used in the valuations. We have not applied any other reasonably possible alternative assumptions to the significant Level 3 categories of private equity investments, as the net asset values are provided by the investment or fund managers.

(Canadian \$ in millions, except as noted)					January 31, 2025	
	Reporting line in fair value hierarchy table	Fair value of assets	Valuation techniques	Significant unobservable inputs	Range of input values (1)	
					Low	High
Private equity	Corporate equity	\$ 5,202	Net asset value	Net asset value	na	na
			EV/EBITDA	Multiple	5	22
Investment properties	Other assets	1,363	Income approach	Capitalization rate	2%	8%

(1) The low and high input values represent the lowest and highest actual level of inputs used to value a group of financial instruments in a particular product category. These input ranges do not reflect the level of input uncertainty, but are affected by the specific underlying instruments within each product category. The input ranges will therefore vary from period to period based on the characteristics of the underlying instruments held at each balance sheet date.

na - not applicable

Significant Transfers

Our policy is to record transfers of assets and liabilities between fair value hierarchy levels at their fair values as at the end of each reporting period, consistent with the date of the determination of fair value. Transfers between Level 1 and Level 2 are dependent on the recency of issuance and availability of quoted market prices in the active market.

The following table presents significant transfers between Level 1 and Level 2 for the three months ended January 31, 2025 and January 31, 2024:

(Canadian \$ in millions)		For the three months ended			
		January 31, 2025		January 31, 2024	
		Level 1 to Level 2	Level 2 to Level 1	Level 1 to Level 2	Level 2 to Level 1
Trading securities	\$	2,664	\$ 1,440	\$ 1,094	\$ 97
FVTPL securities		–	–	168	–
FVOCI securities		1,869	–	1,110	709
Securities sold but not yet purchased		1,737	1,986	2,060	26

Certain comparative figures have been reclassified to conform with the current period's presentation.

Changes in Level 3 Fair Value Measurements

The tables below present a reconciliation of all changes in Level 3 financial instruments for the three months ended January 31, 2025 and January 31, 2024, including realized and unrealized gains (losses) included in earnings and other comprehensive income as well as transfers into and out of Level 3. Transfers from Level 2 into Level 3 were due to an increase in unobservable market inputs used in pricing the securities. Transfers out of Level 3 into Level 2 were due to an increase in observable market inputs used in pricing the securities.

(1) Foreign exchange translation on assets and liabilities held by foreign operations is included in other comprehensive income, net foreign operations.

(2) Changes in unrealized gains (losses) on Trading and FVTPL securities still held on January 31, 2025 and January 31, 2024 are included in earnings for the period.

Unrealized gains (losses) recognized on Level 3 financial instruments may be offset by (losses) gains on economic hedge contracts.

Certain comparative figures have been reclassified to conform with the current period's presentation.

na - not applicable

Note 8: Capital Management

Our objective is to maintain a strong capital position in a cost-effective structure that: is appropriate given our target regulatory capital ratios and our internal assessment of required economic capital; underpins our operating groups' business strategies and considers the market environment; supports depositor, investor and regulator confidence, while building long-term shareholder value; and is consistent with our target credit ratings.

As at January 31, 2025, we met OSFI's target capital ratio requirements, which include a 2.5% Capital Conservation Buffer, a 1.0% Common Equity Surcharge for Domestic Systemically Important Banks (D-SIBs), a Countercyclical Buffer and a 3.5% Domestic Stability Buffer (DSB) applicable to D-SIBs. On December 17, 2024, OSFI announced that the DSB will remain at 3.5%. Our capital position as at January 31, 2025 is further detailed in the Capital Management section of our interim Management's Discussion and Analysis.

Regulatory Capital and Total Loss Absorbing Capacity Measures, Risk-Weighted Assets and Leverage Exposures ⁽¹⁾

(Canadian \$ in millions, except as noted)	January 31, 2025	October 31, 2024
CET1 Capital	\$ 59,197	\$ 57,054
Tier 1 Capital	66,849	64,735
Total Capital	76,340	73,911
TLAC	129,375	123,288
Risk-Weighted Assets	433,944	420,838
Leverage Exposures	1,529,299	1,484,962
CET1 Ratio	13.6%	13.6%
Tier 1 Capital Ratio	15.4%	15.4%
Total Capital Ratio	17.6%	17.6%
TLAC Ratio	29.8%	29.3%
Leverage Ratio	4.4%	4.4%
TLAC Leverage Ratio	8.5%	8.3%

(1) Calculated in accordance with OSFI's Capital Adequacy Requirements Guideline, Leverage Requirements Guideline and Total Loss Absorbing Capacity (TLAC) Guideline.

Note 9: Employee Compensation

Stock Options

During the three months ended January 31, 2025, we granted a total of 716,633 stock options (1,113,853 stock options during the three months ended January 31, 2024) with a weighted-average fair value of \$18.46 per option (\$15.33 per option for the three months ended January 31, 2024).

To determine the fair value of the stock option tranches (i.e. the portion that vests each year) on the grant date, the following ranges of values were used for each option pricing assumption:

For stock options granted during the three months ended	January 31, 2025	January 31, 2024
Expected dividend yield	3.6%	4.5%
Expected share price volatility	16.7%	17.4% - 17.6%
Risk-free rate of return	2.8%	3.3% - 3.4%
Expected period until exercise (in years)	6.5 - 7.0	6.5 - 7.0
Exercise price (\$)	141.00	118.50

Changes to the input assumptions can result in different fair value estimates.

Pension and Other Employee Future Benefit Expenses

Pension and other employee future benefit expenses are determined as follows:

(Canadian \$ in millions)	Pension benefit plans		Other employee future benefit plans	
For the three months ended	January 31, 2025	January 31, 2024	January 31, 2025	January 31, 2024
Current service cost	\$ 44	\$ 38	\$ 2	\$ 1
Net interest (income) expense	(12)	(15)	9	11
Impact of plan amendments	(19)	-	-	(84)
Administrative expenses	5	3	-	-
Benefits expense	18	26	11	(72)
Government pension plans expense (1)	101	104	-	-
Defined contribution expense	109	105	-	-
Total pension and other employee future benefit expenses (recovery) recognized in our Consolidated Statement of Income	\$ 228	\$ 235	\$ 11	\$ (72)

(1) Includes Canada Pension Plan, Quebec Pension Plan and U.S. Federal Insurance Contributions Act.

We amended one of our U.S. pension plans in the first quarter of 2025, resulting in a \$19 million benefit that was recognized as a reduction in employee compensation expense.

Note 10: Earnings Per Share

Basic earnings per share is calculated by dividing net income attributable to bank shareholders, after deducting dividends payable on preferred shares and distributions payable on other equity instruments, by the daily average number of fully paid common shares outstanding throughout the period.

Diluted earnings per share is calculated in the same manner, with further adjustments made to reflect the dilutive impact of instruments convertible into our common shares.

The following tables present our basic and diluted earnings per share:

Basic Earnings Per Common Share

(Canadian \$ in millions, except as noted)	For the three months ended	
	January 31, 2025	January 31, 2024
Net income attributable to bank shareholders	\$ 2,134	\$ 1,290
Dividends on preferred shares and distributions on other equity instruments	(65)	(40)
Net income available to common shareholders	\$ 2,069	\$ 1,250
Weighted-average number of common shares outstanding (in thousands)	729,564	723,751
Basic earnings per common share (Canadian \$)	\$ 2.84	\$ 1.73

Diluted Earnings Per Common Share

(Canadian \$ in millions, except as noted)	For the three months ended	
	January 31, 2025	January 31, 2024
Net income available to common shareholders	\$ 2,069	\$ 1,250
Weighted-average number of common shares outstanding (in thousands)	729,564	723,751
Effect of dilutive instruments		
Stock options potentially exercisable (1)	6,245	3,816
Common shares potentially repurchased	(5,119)	(2,981)
Weighted-average number of diluted common shares outstanding (in thousands)	730,690	724,586
Diluted earnings per common share (Canadian \$)	\$ 2.83	\$ 1.73

(1) In computing diluted earnings per share, we excluded average stock options outstanding of 482,948 with a weighted-average exercise price of \$153.89 for the three months ended January 31, 2025 (2,991,066 with a weighted-average exercise price of \$132.29 for the three months ended January 31, 2024), as the average share price for the periods did not exceed the exercise price.

Note 11: Income Taxes

Tax Assessments

Canadian tax authorities have reassessed us for additional income tax and interest in an amount of approximately \$1,465 million in respect of certain 2011-2018 Canadian corporate dividends. These reassessments denied certain dividend deductions on the basis that the dividends were received as part of a "dividend rental arrangement." In general, the tax rules raised by the Canadian tax authorities were prospectively addressed in the 2015 and 2018 Canadian federal budgets. We filed Notices of Appeal with the Tax Court of Canada and the matter is in litigation. We remain of the view that our tax filing positions were appropriate and intend to challenge all reassessments. However, if such challenges are unsuccessful, the additional expense would negatively impact our net income.

Global Minimum Tax

In May 2023, the IASB issued an amendment to IAS 12 *Income Taxes* (IAS 12). The amendment addresses concerns around accounting for the global minimum top-up tax as outlined in the two-pillar plan for international tax reform developed by members of the Organisation for Economic Co-operation and Development/G20 Inclusive Framework on Base Erosion and Profit Shifting. The amendment to IAS 12 includes temporary mandatory relief from recognizing and disclosing deferred taxes related to the top-up tax. We have applied the temporary mandatory relief related to deferred taxes in jurisdictions in which we operate where the top-up tax legislation has been enacted, or substantively enacted. The global minimum tax rules are effective for our fiscal year beginning November 1, 2024, and as a result, our effective tax rate increased by approximately 65 basis points for the three months ended January 31, 2025.

Note 12: Operating Segmentation

Operating Groups

We conduct our business through three operating groups, each of which has a distinct mandate. Our operating groups are Personal and Commercial Banking (P&C) (comprised of Canadian Personal and Commercial Banking (Canadian P&C) and U.S. Personal and Commercial Banking (U.S. P&C)), BMO Wealth Management (BMO WM) and BMO Capital Markets (BMO CM), along with a Corporate Services unit.

For additional information refer to Note 26 of our annual consolidated financial statements for the year ended October 31, 2024.

Our results and average assets, grouped by operating segment, are as follows:

(Canadian \$ in millions)									
	Canadian					Corporate			
For the three months ended January 31, 2025	P&C	U.S. P&C	BMO WM	BMO CM	Services (1)	Total			
Net interest income (2)	\$ 2,385	\$ 2,205	\$ 355	\$ 699	\$ (246)	\$ 5,398

Average assets (3)	\$ 341,485	\$ 248,222	\$ 70,005	\$ 578,930	\$ 282,872	\$ 1,521,514			

	Canadian					Corporate			
For the three months ended January 31, 2024	P&C	U.S. P&C	BMO WM	BMO CM	Services (1)	Total			
Net interest income (2)	\$ 2,141	\$ 2,058	\$ 325	\$ 505	\$ (308)	\$ 4,721			
Non-interest revenue	637	396	1,003	1,084	(169)	2,951			
Total Revenue	2,778	2,454	1,328	1,589	(477)	7,672			
Provision for credit losses on impaired loans	238	183	3	11	38	473			
Provision for (recovery of) credit losses on performing loans	57	107	10	(33)	13	154			
Total provision for (recovery of) credit losses	295	290	13	(22)	51	627			
Depreciation and amortization	143	246	66	77	-	532			
Non-interest expense	1,067	1,220	931	1,039	600	4,857			
Income (loss) before taxes and non-controlling interest in subsidiaries	1,273	698	318	495	(1,128)	1,656			
Provision for (recovery of) income taxes	352	138	78	102	(306)	364			
Reported net income (loss)	\$ 921	\$ 560	\$ 240	\$ 393	\$ (822)	\$ 1,292			
Non-controlling interest in subsidiaries	\$ -	\$ -	\$ -	\$ -	\$ 2	\$ 2			
Net income (loss) attributable to bank shareholders	\$ 921	\$ 560	\$ 240	\$ 393	\$ (824)	\$ 1,290			
Average assets (3)	\$ 321,018	\$ 232,345	\$ 62,524	\$ 438,202	\$ 267,902	\$ 1,321,991			

(1) Corporate Services includes Technology and Operations.

(2) Operating groups report on a taxable equivalent basis (teb). Revenue and the provision for income taxes are increased on tax-exempt securities to an equivalent before-tax basis to facilitate comparisons of income between taxable and tax-exempt sources. The offset to the groups' teb adjustments is reflected in Corporate Services revenue and provision for income taxes.

(3) Included within average assets are average earning assets, which are comprised of deposits with other banks, deposits at central banks, securities borrowed or purchased under resale agreements, loans and securities. Total average earning assets for three months ended January 31, 2025 are \$1,319,541 million, including \$339,325 million for Canadian P&C, \$227,215 million for U.S. P&C, and \$753,001 million for all other operating segments including Corporate Services (for three months ended January 31, 2024 - Total: \$1,194,407 million, Canadian P&C: \$307,501 million, U.S. P&C: \$212,331 million and all other operating segments: \$674,575 million).

Investor and Media Information

Investor Presentation Materials

Interested parties are invited to visit BMO's website at www.bmo.com/investorrelations to review the 2024 Annual MD&A and audited annual consolidated financial statements, quarterly presentation materials and supplementary financial and regulatory information package.

Quarterly Conference Call and Webcast Presentations

Interested parties are also invited to listen to our quarterly conference call on Tuesday, February 25, 2025, at 8:15 a.m. (ET). The call may be accessed by telephone at 416-340-2217 (from within Toronto) or 1-800-806-5484 (toll-free outside Toronto), entering Passcode: 9768240#. A replay of the conference call can be accessed until March 25, 2025, by calling 905-694-9451 (from within Toronto) or 1-800-408-3053 (toll-free outside Toronto) and entering Passcode: 9180754#.

A live webcast of the call can be accessed on our website at www.bmo.com/investorrelations. A replay can also be accessed on the website.
